

## Performance Profile Definitions

Metric Name	Definition
<b>Health Center Program Requirement Goal</b>	
Percent of Health Center Program grantees with no program conditions on the Notice of Awards (NoAs).	This metric provides the number and percentage of currently funded H80 grantees that do not have any active 30-day program conditions issued in the current or previous calendar years. Program conditions relate to compliance with the 19 Key Program Requirements: <a href="http://www.bphc.hrsa.gov/about/requirements/index.html">http://www.bphc.hrsa.gov/about/requirements/index.html</a> . Data as of: October 2015
<b>Clinical Performance Improvement Goals</b>	
Percent of Health Center Program grantees in the state/region that meet or exceed performance on one or more Healthy People (HP) 2020 performance measure goal(s).	This metric provides the number and percentage of grantees that have met or exceeded the HP 2020 performance measure goal(s) on at least one of the clinical measures. This metric applies to the total number of grantees who submitted 2014 Uniform Data System (UDS) data.
Percent of children immunized is 80.0% or higher.	This metric provides the number and percentage of grantees which have met or exceeded the HP 2020 performance measure goal(s) of 80.0% or higher for % of children immunized by 2nd birthday clinical measure in the 2014 UDS. This metric does not include grantees that did not report data for immunizations.
Percent of diabetic patients with HbA1c less than or equal to 9% is 83.9% or higher.	This metric provides the number and percentage of grantees that have met or exceeded the HP 2020 performance measure goal(s) of 83.9% or higher for % diabetic patients with HbA1c less than or equal to 9% clinical measure in the 2014 UDS. This metric does not include grantees that did not report data for diabetes.
Percent of cervical cancer screenings is 93.0% or higher.	This metric provides the number and percentage of grantees that have met or exceeded the HP 2020 performance measure goal(s) of 93.0% or higher for % female patients with PAP test clinical measure in the 2014 UDS. This metric does not include grantees that did not report data for PAP tests.
Percent of hypertensive patients with blood pressure (BP) less than 140/90 is 61.2% or higher.	This metric provides the number and percentage of grantees that have met or exceeded the HP 2020 performance measure goal(s) of 61.2% or higher for % hypertensive patients with BP less than 140/90 clinical measure in the 2014 UDS. This metric does not include grantees that did not report data for hypertension.
Percent of low birth weight is 7.8% or lower.	This metric provides the number and percentage of grantees that have met or exceeded the HP 2020 performance measure goal(s) of 7.8% or lower for % low birth weight clinical measure in the 2014 UDS. This metric does not include grantees that did not report data for low birth weight.
Percent of prenatal patients served in the 1st trimester is 77.9% or higher.	This metric provides the number and percentage of grantees that have met or exceeded the HP 2020 performance measure goal(s) of 77.9% or higher for % prenatal patients served in the 1st Trimester clinical measure in the 2014 UDS. This metric does not include grantees that did not report data for prenatal patients.

## Performance Profile Definitions

Metric Name	Definition
Percent of colorectal cancer screenings is 70.5% or higher.	This metric provides the number and percentage of grantees that have met or exceeded the HP 2020 performance measure goal(s) of 70.5% or higher for colorectal cancer Screening clinical measure in 2014 UDS. This metric does not include grantees that did not report data for colorectal cancer screening.
Percent of Health Center Program grantees with Patient-Centered Medical Home (PCMH) recognition.	This metric provides the number and percentage of grantees that currently have PCMH recognition for at least one site as of June 2015. Only sites recognized within the past 3 years will be considered to be PCMH recognized.
<b>Financial Performance Improvement Goals</b>	
Percent of Health Center Program grantees with cost increase less than national average.	<p>This metric provides the number and percent of grantees that have a percent increase in cost per patient that is less than 80.0% of the Centers for Medicare and Medicaid (CMS) National Health Expenditure rate (NHE). Eighty percent of the CMS NHE is 4.54%. This percent was derived from the projected 2013 and 2014 total health expenditure data published by CMS: <a href="https://www.cms.gov/Research-Statistics-Data-and-Systems/Statistics-Trends-and-Reports/NationalHealthExpendData/index.html?redirect=/NationalHealthExpendData/03_NationalHealthAccountsProjected.asp#TopOfPage">https://www.cms.gov/Research-Statistics-Data-and-Systems/Statistics-Trends-and-Reports/NationalHealthExpendData/index.html?redirect=/NationalHealthExpendData/03_NationalHealthAccountsProjected.asp#TopOfPage</a>.</p> <p>This metric applies to the total number of grantees who submitted 2014 UDS data.</p>
Percentage of Health Center Program grantees without going concern issues.	This metric provides the number and percentage of grantees that currently have no going concern issues identified in the most recent audit. This metric includes financial data reported by grantees as of 12/31/2013.
