Patient Projection Guidance

Patient projections must:

• Be 75% or more of the SAAT patient target

• Be realistic, achievable, annualized, and unduplicated (include only patients projected to be seen in calendar year 2019)

• Consider factors such as:
  – Service area patient, clinical, and financial data trends
  – Service area and target population needs
  – Known and anticipated workforce challenges

• Additional information provided in the Patient Target FAQs http://bphc.hrsa.gov/programopportunities/fundingopportunities/sac/patienttarget.pdf
Post-Award

- Patient target - Total number of patients that an award recipient commits to serving through funded applications
  - FY 2018 SAC application patient projection (new and competing continuation applicants) will be the new **base value** of the patient target
  - Future supplemental application patient projections (such as AIMS new patient projections) will be added to the base value
- If the patient target is not achieved by December 31, 2019 (measured using the 2019 Uniform Data System (UDS) Report), funding for the service area may be reduced when it is announced in the FY 2021 SAC
Clinical and Financial Performance Measures
Performance Measures: General Information

• 16 Clinical Performance Measures
  – 2 have been revised (cervical cancer screening and ischemic vascular disease). Refer to Program Assistance Letter 2017-02 (https://bphc.hrsa.gov/datereporting/pdf/pal201702.pdf).
  – Dental Sealants is the only measure that can be zeroed out if services are not provided directly. See the FAQs for details.

• 3 Financial Performance Measures

• See SAC NOFO Appendix B for complete performance measure instructions
Performance Measure Form
Field Highlights

• Baseline Data: Zeros are acceptable when data is not available (e.g., newly revised measures)
• Goal: Project for calendar year 2019
• Key Factor Type: Specify at least one contributing and restricting factor
• Competing continuation applicants:
  – Baseline data will not pre-populate for the revised Clinical Performance Measures
  – For prepopulated baseline data, more current data may be provided in the Comments field, if desired
  – Progress field captures progress since the last submission (SAC or BPR)
True/False?

New and competing supplement applicants are not required to complete the performance measures forms, since they have never reported in the Uniform Data System (UDS) for the service area proposed.
Question #4 Answer

Answer – False

All applicants must respond to all performance measures
Award Decision Factors
Project Period Length Criteria

- See the Project Period Length Criteria in Section V.2 of the NOFO
- A one-year project period will be awarded if any of the following are met:
  - 10 or more Health Center Program requirement conditions
  - 3 or more unresolved conditions related to Health Center Program requirements in the 60-day phase of Progressive Action carried over into the new project period
  - 1 or more unresolved conditions related to Health Center Program requirements in the 30-day phase of Progressive Action carried over into the new project period
Consecutive One-Year Project Periods

HRSA will not make a SAC award to a competing continuation applicant that has been awarded one-year project periods in the previous two award cycles and meets the criteria for a third one-year project period in FY 2018.
Funding Priority
(Competing Continuation Applicants Only)

- Priority 1: Program Compliance (5 points)
  - No Health Center Program requirements conditions in 60-day, 30-day, or default status

- Priority 2: Patient Trend (5 additional points)
  - Positive or neutral 3-year patient growth trend (+/- 5%)
  - Must meets the criteria for Priority 1: Program Compliance to receive these additional points
