Demonstrating Compliance

Element a: Annual Budgeting for Scope of Project

The health center develops and submits to HRSA (for new or continued funding or designation from HRSA) an annual operating budget, also referred to as a “total budget,”¹ ² that reflects projected costs and revenues necessary to support the health center’s proposed or HRSA-approved scope of project.

Site Visit Team Methodology

- Review health center’s most current annual operating budget for the health center project.
- Review Budget to Actual Comparison Reports for the Current Fiscal Year and the Prior Fiscal Year Financial Management Procedures.
- Review health center’s approved scope of project (Form 5A and 5B), including any special populations funding or designation. Determine if there has been any change in the scope of project since the last HCP application which impacts the current budget.
- Interview health center CEO, CFO/finance staff to understand budget formulation process (e.g., budget assumptions), including any variances or questions raised by the review of budget to the actual comparison reports.

¹ A health center’s “total budget” includes the Health Center Program federal award funds and all other sources of revenue in support of the HRSA-approved health center scope of project.
² Any aspects of the requirement that relate to the use of Health Center Program federal award funds are not applicable to look-aikes.
Site Visit Findings
