Demonstrating Compliance

Element a: Composition and Functions of Key Management Staff

The health center has determined the makeup and distribution of functions among its key management staff\(^1\) and the percentage of time dedicated to the health center project for each position, as necessary, to carry out the HRSA-approved scope of project.

Site Visit Team Methodology

- Review Form 2: Staffing Profile and review the position descriptions or contracts for key management staff from the most recent SAC/RD application, and if applicable, review any new job descriptions.
- Review the current organization chart.
- Interview various members of the health center’s key management staff to determine how key functions are distributed and carried out.

\(^1\) Examples of key management staff may include Project Director/CEO, Clinical Director/Chief Medical Officer, Chief Financial Officer, Chief Operating Officer, Nursing/Health Services Director, or Chief Information Officer.
Site Visit Findings

1. Was the health center able to justify how the distribution of functions and allocation of time for each key management position is sufficient to carry out the approved scope of the health center project (e.g., Is there a clear justification for a part-time PD/CEO or for the lack of a dedicated CFO position)?

☐ YES    ☐ NO

If No, an explanation is required, including describing why the distribution of functions and allocation of time for each key management position is insufficient to carry out the scope of project:
