# Updated HRSA Cervical Cancer Screening Guideline

- HRSA's Women's Preventive Service Initiative (WPSI) recommends cervical cancer screening for average-risk women aged 21 to 65 years. For women aged 21 to 29 years, cervical cancer screening using cervical cytology (Pap test) every 3 years is recommended. Co-testing with cytology and human papillomavirus (hrHPV) testing is not recommended for women younger than 30 years.
- Women aged 30 to 65 years should be screened with primary hrHPV testing every 5 years (preferred) or cytology and hrHPV testing (co-testing) every 5 years. If hrHPV testing is not available, continue screening with cytology alone every 3 years. Women who are at average risk should not be screened more than once every 3 years.
- Patient-collected hrHPV testing is an appropriate method and should be offered as an option for cervical cancer screening in women aged 30 to 65 years at average risk.
- Additional testing may be required to complete the screening process and follow-up findings on the initial screening. If additional testing (e.g., cytology, biopsy, colposcopy, extended genotyping, dual stain) and pathologic evaluation are indicated, these services also are recommended to complete the screening process for malignancies.

# Uniform Data System (UDS) Updates

## 2025 UDS Reporting Period is Open!

Jan 1	2025 UDS Report Submission Period officially begins through EHBs
Feb 15	Complete UDS Report Due (Health Centers)
Feb 16 - Mar 31	UDS Review Period
Mar 31	Any corrected UDS submissions must be finalized

## Who needs to report UDS data?

- All health centers funded or designated in whole or in part before **October 1** of the reporting year must report on in-scope activities for the full calendar year (January 1 – December 31).
- Visit [Health Center Changes and UDS Reporting: Frequently Asked Questions](#) for more.

## Where can I get UDS reporting assistance?

- [UDS Technical Assistance](#) webpages
- [2025 UDS Manual](#)
- [UDS Office Hour](#): Wednesday, February 4, 2:00– 3:00 p.m. ET

## 2026 UDS Instrument Updates

### 60-Day Federal Register Notice (FRN)

✓ Public comment period ends: 2/9/26

### 2026 UDS Proposed Changes Program Assistance Letter (PAL)

✓ Released 12/16/25

For general UDS reporting questions, submit inquiries via the [BPHC Contact Form](#).

# FTCA Listening Sessions: Key Initial Findings

Across both listening sessions, feedback consistently showed:

- **Concern regarding the complexity and administrative burden of FTCA requirements and deeming processes**
  - ✓ Risk management requirements are the single largest source of concern
  - ✓ Inconsistency across review
- **Demand for clearer and more stable compliance guidance**
  - ✓ Lack of clarity in requirements and guidance drives frustration more than workload alone
- **Desire for practical, realistic tools to support compliance**
  - ✓ Participants want practical guidance and transparency, not reduced oversight
