Changes from the Previous Instructions

Key Changes (1/3)

See the Instructions
for all changes

- Clarified what factors HRSA considers to determine if your organization is independently owned, controlled, and operated. (For example, whether most of your clinical and administrative functions are provided through direct employment, contractors, or a single affiliated or related organization.)
- Added a request for information on how you provided your local community with notice of your application to become a look-alike.
- Updated Attachment 18: Other Relevant Documents. You must submit more information in the attachment and HRSA may not approve your application if:
 - You propose a look-alike site within 1 mile of a current Health Center Program award recipient or look-alike site.
 - You propose a service area that has a Health Center Program penetration level of the low-income population that is 50 percent or greater, per the [Health Center Program \(HCP\) GeoCare Navigator](#). You must include both Health Center Program award recipients and LALs in your GeoCare Navigator service area map.
 - You select “urban” on Form 1A, and your proposed look-alike site is more than 15 miles from your closest proposed look-alike site, if proposing multiple sites.
 - You select “rural” on Form 1A, and your proposed look-alike site is more than 30 miles from your closest proposed look-alike site, if proposing multiple sites.

Key Changes (2/3)

See the Instructions
for all changes

- Updated Attachment 18: Other Relevant Documents to add that HRSA will further evaluate applications with proposed service areas that overlap with other health centers or LALs. This review will consider whether letters of support were submitted in Attachment 15: Collaboration Documentation, as well as the potential impact of a new look-alike on both the unmet need in the community and the financial stability of existing Health Center Program award recipients, LALs, other Medicaid providers, and other providers serving the uninsured in the proposed service area.
- Explained how to include indirect costs in your budget.
- Added that HRSA may prioritize application review and technical assistance if at least one of your service delivery sites is in a zip code with an Unmet Need Score (UNS) of 75 or greater according to the [Unmet Need Score Map Tool](#) or is located in an area currently served by the Health Center Program and at risk for losing access to care.
- Updated [Form 1A: General Information Worksheet](#) (PDF) to include your UNS score.
- Removed the Clinical and Financial Performance Measures form.
