

Uniform Data System (UDS) Reporting Requirements Training

Annual State-Based Training
Calendar Year 2022

Bureau of Primary Health Care (BPHC)

Vision: Healthy Communities, Healthy People

Training Agenda

1. Welcome and Logistics
2. Overview of the UDS
3. Reporting Patient Demographic Profile
4. Reporting Clinical Services and Quality of Care Indicators
5. Reporting Operational and Financial Tables
6. Other Required UDS Reporting Forms
7. Tips for Success

Overview of the UDS

The Who, What, Where, When, and Why of the UDS

Key Facts About Reporting the UDS

WHO

CHCs, HCHs, MHCs, PHPCs, LALs, and BHW primary care clinics funded or designated before Oct. 2022 all complete a UDS Report.

WHAT

The UDS includes 11 tables and 3 forms that provide an annual snapshot of all in-scope activities; Universal and, if applicable, Grant Reports.

WHERE

The UDS Report is completed in the Performance Report in the Electronic Handbooks (EHBs).

WHEN

All health centers complete their UDS Report between Jan. 1 and Feb. 15, 2023; reporting covers health center services in calendar year from Jan. 1 to Dec. 31, 2022.

WHY

The UDS is legislatively mandated as part of the Health Center Program; used for program monitoring and improvement.

For a full list of acronyms, refer to Appendix I of the [UDS Manual](#).

Health Center Program Grants and Designations

Some health centers have a **single 330 grant**: CHC, HCH, MHC, PHPC—any one of these.

Some health centers have **more than one 330 grant**: these health centers have two or more 330 grants, in any combination of CHC, HCH, MHC, and/or PHPC 330 grants.

Some health centers have a **Health Center Program look-alike (LAL) designation**: these health centers do not have a 330 grant.

Additional [definitions](#) that may be helpful

Value of the UDS

The UDS demonstrates **the scope of the health center program**, including type, volume, and outcomes, for each calendar year.

Because it captures this data each year, it allows stakeholders to **understand how each health center and health centers in aggregate have changed** year over year.

The UDS captures and conveys to HRSA the work that you have been doing and, all together, conveys to Congress and other stakeholders the **important work that the entire Health Center Program is doing**.

Overview of UDS Report

Four Primary Sections

Patient Demographic Profile

- **ZIP Code**, medical insurance
- **Table 3A**: Age, sex at birth
- **Table 3B**: Race, ethnicity, language, sexual orientation, gender identity
- **Table 4**: Income, medical insurance, special populations

Clinical Services and Outcomes

- **Table 5**: Staff, visits, patients, and integrated behavioral health
- **Table 6A**: Selected services and diagnoses
- **Table 6B**: Clinical quality measures
- **Table 7**: Clinical outcome measures by race & ethnicity

Financial Performance

- **Table 8A**: Financial costs
- **Table 9D**: Patient service-related charges and collections
- **Table 9E**: Other revenue

Other Forms

- **Appendix D**: Health Information Technology (HIT) Capabilities
- **Appendix E**: Other Data Elements (ODE)
- **Appendix F**: Workforce

Overview of UDS Report

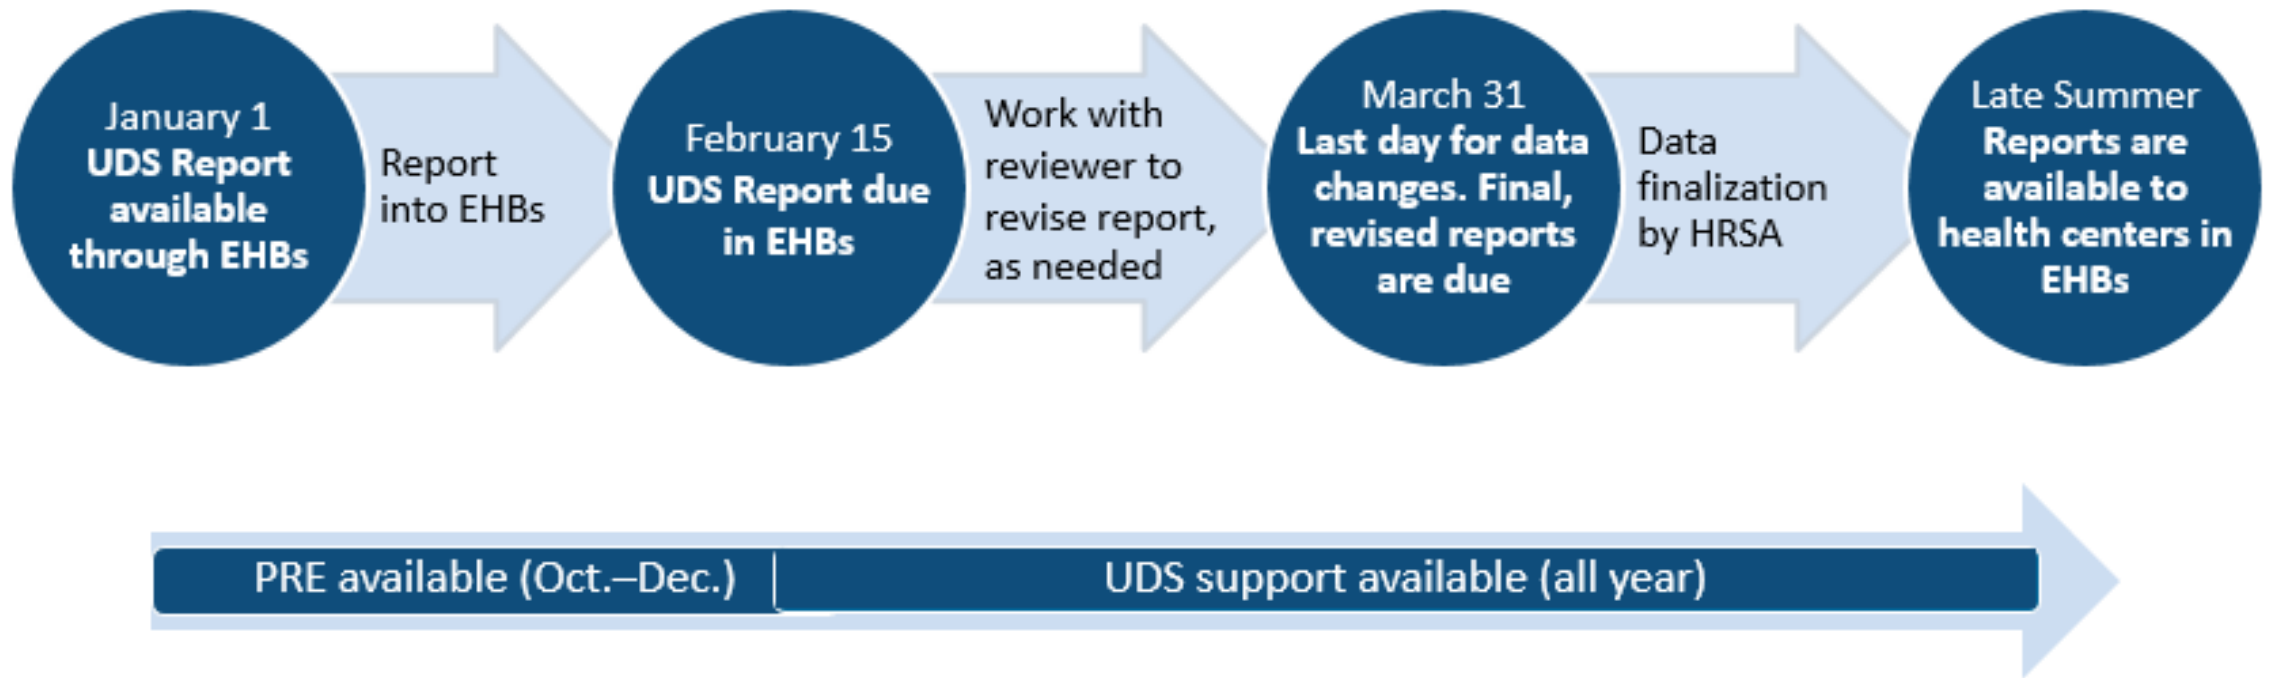

Eleven Tables and Three Forms

- All tables and forms are completed in a Universal Report.
 - **Universal Report**—completed by all reporting health centers (those with one 330 grant, LALs, and those with multiple 330 grants).
 - **Grant Report(s)**—completed only by awardees that receive multiple 330 grants (e.g., CHC, MHC, HCH, PHPC).

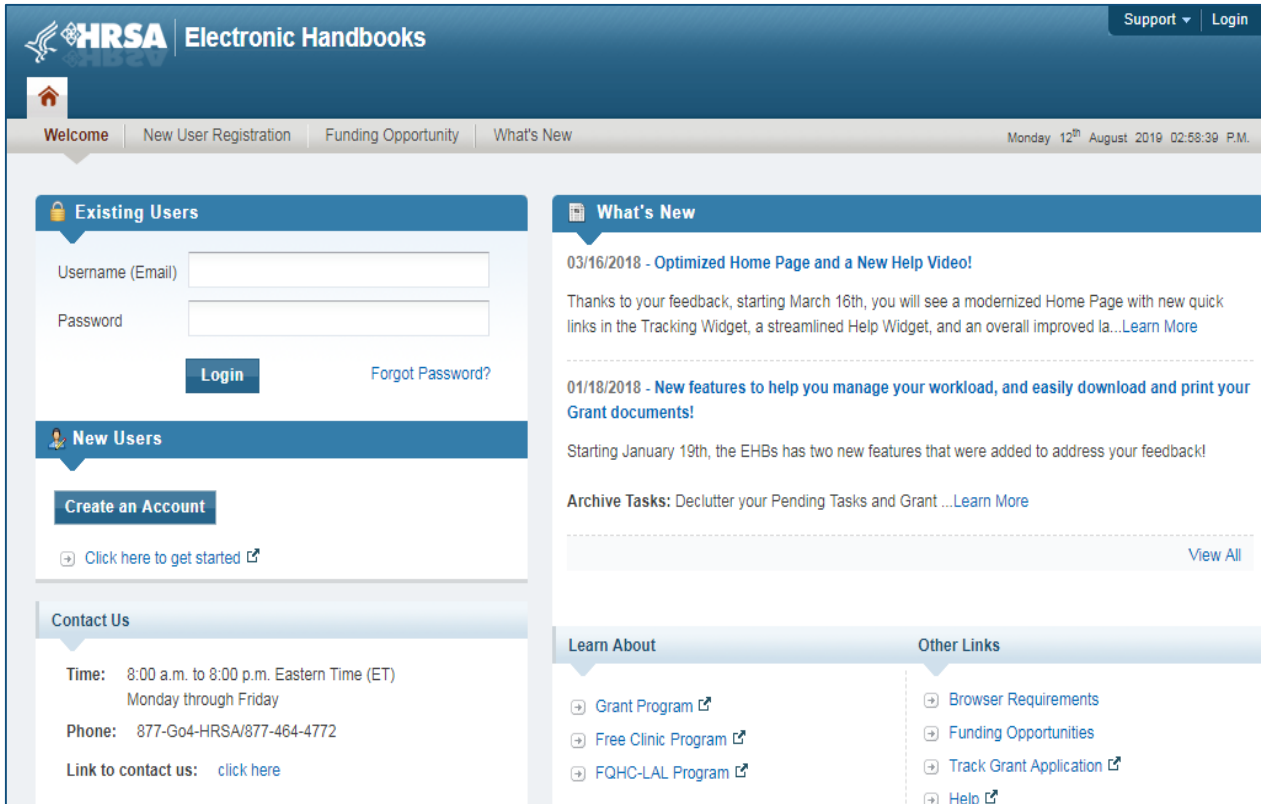

Table <i>All reported in Universal Report</i>	Table in Grant-Specific Report(s)? <i>For those health centers with multiple 330 grants</i>
ZIP Code	No
3A, 3B, 4	Yes
5	Yes, but patients and visits only
6A	Yes
6B, 7, 8A, 9D, 9E	No
HIT, ODE, & Workforce Forms	No

Reporting Timeline

Where to Report: The Electronic Handbooks (EHBs)

- The UDS is the Performance Report for your H80 grant or LAL designation in the EHBs.
- Each person tasked with UDS data entry or review needs a login to the [EHBs](#).
- UDS Modernization tools to assist with reporting:
 - Preliminary Reporting Environment (PRE; for early access)
 - Excel Template (download/upload in the EHBs)
 - Comparison Tool
 - Edits

Strategies for Successful Submission webinar provides a live demo of the PRE and helpful tools to assist with reporting.

Picture That These Data Paint

Health centers provide affordable, high-quality primary health care to **more than 30 MILLION** people in the U.S. each year. That includes:

1 in 9

children & adolescents

1 in 5

rural residents

1 in 3

living in poverty

63%

identify as racial and/or ethnic minorities

Nearly **1.3M** experiencing homelessness

1M+ agricultural workers

Nearly **770K** school-based health center patients

Nearly **390K** Veterans

HRSA
Health Resources & Services Administration

Health Center Program

Key Definitions

Understanding Terms Foundational to the UDS

Health Center
Patient

Countable
Visit

Health Center
Scope

Health Center Scope

UDS Definition: Health center scope of project defines a health center's approved service sites, services, providers, service area, and target populations.

- Only services in the **health center scope of project**, meaning the scope of your 330 grant or LAL designation, are captured in the UDS.
- For some, all sites and services are within the health center scope of project. For others, the health center scope of project is a subset of the larger organization.
 - It is important to understand your health center's scope of project in order to report correctly.
 - Sites that are part of your health center scope of project are spelled out on your Form 5B; in-scope services for your health center are on your Form 5A; and other activities and locations on Form 5C.

Patient

UDS Definition: A person who has at least one countable visit, reported on Table 5, in one or more service category during the calendar year, is a health center patient.

- The patient demographic tables (ZIP Code Table and Tables 3A, 3B, and 4) provide an **unduplicated count of health center patients**.
 - In the patient demographic profile tables, **each patient counts once** regardless of the number of visits or services received.
 - All patients must be included in the patient demographic tables by their demographic characteristics.
- People who are not patients by this definition are not counted anywhere on the UDS.
- Health center patients are reported on all service and clinical tables for which they meet the criteria.

Visit

UDS Definition: Encounters between a patient and a licensed or credentialed provider who exercises independent professional judgment in providing services that are individualized to the patient and documented in the patient's record are countable visits, reported on Table 5.

- Visits can be **clinic (in-person) or virtual**; the requirements to be countable are the same for each.
- Only **certain personnel are classified as providers** and can therefore generate countable visits.
 - Appendix A of the [UDS Manual](#) specifies what personnel (by row on Table 5) can be providers on the UDS. Page 63 spells out lines that cannot have visits.
- A countable visit in ANY service category on Table 5 makes someone a health center patient on the UDS.
 - Page 51 of the [2022 UDS Manual](#) outlines the different service categories reported in the UDS.
- An encounter is a countable visit when it is **one-to-one with a provider and a patient**.
 - **Exception:** mental health and substance use disorder visits, which can be group visits.

Remember the Big Picture

Identify Patients Served in Your Health Center Scope

A “health center patient” is a patient with a UDS countable visit (on Table 5) in the calendar year.

Report Patient Characteristics

Demographic information must be captured and reported for all unduplicated health center patients (Tables ZIP, 3A, 3B, 4).

Report Services Patients Received

Services & clinical tables (Tables 5, 6A, 6B, 7) reflect ONLY and ALL services provided to health center patients.

Report Financials

Financial tables (Tables 8A, 9D, 9E) include ONLY and ALL services reflected in all other tables and the UDS as a whole.

Health Center Scope

Determine what sites and services are within your health center scope of project.

Overview of the UDS Tables and Forms

Understanding What Data Is Reported and Why

ZIP Code Table, Tables 3A, 3B, and 4

Understanding Who You Are Serving

**Patient
Demographic Profile**

Services and
Outcomes**

**Financial
Tables**

**Other
Forms**

Overview of Patient Demographic Tables

	ZIP Code Table	Table 3A	Table 3B	Table 4
Captures	Patients by ZIP code and primary medical insurance	Patients by age and sex assigned at birth	<ul style="list-style-type: none"> • Patients by race and ethnicity • Patients best served in a language other than English* • Patients by sexual orientation and gender identity 	<ul style="list-style-type: none"> • Patients by income as percent of poverty guideline • Patients by primary medical insurance • Patients by managed care* • Special population status*
Purpose	To understand the distribution of your health center patients by geography and medical insurance	To understand the age and sex distribution of patients and offer comparative information for services (such as pediatrics and OB/GYN)	To understand the reach and distribution of health center services to patients and understand/support equity of access	To understand efficacy of the health center program mission of reaching underserved patients, including special populations

*Remember, all sections of these tables (except those that are *starred) equal each other because they describe the same group of patients, just by different characteristics.*

Patients by ZIP Code Table

Report total patients by ZIP code of residence and primary medical insurance.

- Rows are ZIP codes (which you will enter or import); columns are medical insurance categories.
 - List all ZIP codes in which your health center has 11 or more patients in Column A.
- Aggregate ZIP codes with 10 or fewer patients into the Other ZIP Codes line.
- Use local address for migratory agricultural workers and people from other countries; use clinic address for patients experiencing homelessness if no other address.

Keys to remember:

- There is **no unknown primary medical insurance**; all patients must have medical insurance captured.
- On this table, Medicaid, CHIP, and Other Public are combined in Column C. (They are separate on Table 4.)
- Total patients' ZIP code by medical insurance **must equal** counts of patients by insurance on Table 4.

ZIP Code (a)	None/Uninsured (b)	Medicaid/CHIP/Other Public (c)	Medicare (d)	Private (e)	Total Patients (f)
<ZIP codes will be entered here>					
<ZIP codes will be entered here>					
Other ZIP Codes					
Unknown Residence					
Total					

Patients by Age and Sex Assigned at Birth

Table 3A

Report all patients by **age** and **sex assigned at birth** (as reported on birth certificate).

- Rows are age, columns are sex assigned at birth.
- Use age as of **December 31, 2022**.
 - *This is an update from prior years!*

Keys to remember:

- All patients must be reported as either male or female for sex assigned at birth; there is no unknown.
- Patients by age must equal Table 4 insurance by age groups (0–17 years old and 18 and older).
- Information is used for cross-table comparisons.

Line	Age Groups	Male Patients (a)	Female Patients (b)
1	Under age 1		
2	Age 1		
3	Age 2		
4	Age 3		
5	Age 4		
6	Age 5		
7	Age 6		
8	Age 7		
9	Age 8		
10	Age 9		
11	Age 10		
...	...		
26	Ages 25–29		
27	Ages 30–34		
28	Ages 35–39		
29	Ages 40–44		
30	Ages 45–49		
31	Ages 50–54		
32	Ages 55–59		
33	Ages 60–64		
34	Ages 65–69		
35	Ages 70–74		
36	Ages 75–79		
37	Ages 80–84		
38	Age 85 and over		
39	Total Patients (Sum of Lines 1–38)		

Ethnicity, Race, and Language

Table 3B, Lines 1–8

Patients by Race and Hispanic or Latino/a Ethnicity					
Line	Patients by Race	Hispanic or Latino/a (a)	Non-Hispanic or Latino/a (b)	Unreported/Chose Not to Disclose Ethnicity (c)	Total (d) (Sum Columns a+b+c)
1	Asian				
2a	Native Hawaiian				
2b	Other Pacific Islander				
2	Total Native Hawaiian/Other Pacific Islander (Sum Lines 2a + 2b)				
3	Black/African American				
4	American Indian/Alaska Native				
5	White				
6	More than one race				
7	Unreported/Chose not to disclose race				
8	Total Patients (Sum of Lines 1 + 2 + 3 to 7)				

Line	Patients Best Served in a Language Other than English	Number (a)
12	Patients Best Served in a Language Other than English	

Report all patients by **ethnicity and race**.

- Rows are race categories; columns are ethnicity categories.
- If race is known, but ethnicity is not, report in Column B.
- If patient identifies as or selects multiple races, report on Line 6.
- **Only report patients with unknown race *and* unknown ethnicity on Line 7, Column C.**
- Line 8, Column D, equals total unduplicated patients.

Ethnicity, Race, and Language

Table 3B, Line 12

Line	Patients by Race and Hispanic or Latino/a Ethnicity	Hispanic or Latino/a (a)	Non-Hispanic or Latino/a (b)	Unreported/Chose Not to Disclose Ethnicity (c)	Total (d) (Sum Columns a+b+c)
1	Asian				
2a	Native Hawaiian				
2b	Other Pacific Islander				
2	Total Native Hawaiian/Other Pacific Islander (Sum Lines 2a + 2b)				
3	Black/African American				
4	American Indian/Alaska Native				
5	White				
6	More than one race				
7	Unreported/Chose not to disclose race				
8	Total Patients (Sum of Lines 1 + 2 + 3 to 7)				
Line	Patients Best Served in a Language Other than English	Number (a)			
12	Patients Best Served in a Language Other than English				

Report patients **best served in a language other than English** on Line 12.

- If the patient’s primary language is not English, then they are reported on this line.
- Line 12 is a subset of total patients.

Keys to remember

- Race, ethnicity, and language are to be self-reported by patients or caregivers (and are not to be inferred).
- Patients should be able to select more than one race and, if they do, are reported as more than one race.

Sexual Orientation (SO) and Gender Identity (GI)

Table 3B, Lines 13–19 and Lines 20–26

Total patients are reported by self-reported sexual orientation and gender identity.

Line	Patients by Sexual Orientation	Number (a)
13	Lesbian or Gay	Patient selected option
14	Heterosexual (or straight)	Patient selected option
15	Bisexual	Patient selected option
16	Other	Patient selected option
17	Don't know	Patient selected option
18	Chose not to disclose	Patient selected option
18a	Unknown	No info collected
19	Total Patients (Sum of Lines 13 to 18a)	

Line	Patients by Gender Identity	Number (a)
20	Male	Patient selected option
21	Female	Patient selected option
22	Transgender Man/Transgender Male/Transgender Masculine	Patient selected option
23	Transgender Woman/Transgender Female/Transgender Feminine	Patient selected option
24	Other	Patient selected option
25	Chose not to disclose	Patient selected option
25a	Unknown	No info collected
26	Total Patients (Sum of Lines 20 to 25a)	

Lines 13–15 and Lines 20–23 may be fairly clear, while the others are more opaque. Here is a reference table:

SO	Line 16: Other: Patient either chooses 'Other' OR one of any number of other sexual orientations (asexual, pansexual, etc.) that are not listed elsewhere in these lines.	Line 17: Don't know: Patient reports that they do not know; unknown to the patient.	Line 18: Chose not to disclose: Patient actively chooses not to disclose this information, such as by selecting 'Choose not to disclose' or 'prefer not to say' from the list.	Line 18a: Unknown: The information was not collected from the patient; unknown to the health center.
GI	Line 24: Other: Patients who do not identify as any of the other gender identities, including patients who identify as genderqueer or gender non-binary.		Line 25: Chose not to disclose: Patient actively chooses not to disclose this information, such as by selecting 'Choose not to disclose' from the list.	Line 25a: Unknown: The information was not collected from the patient; unknown to the health center.

Income as a Percent of Federal Poverty Guideline

Table 4, Lines 1–6

Line	Income as Percent of Poverty Guideline	Number of Patients (a)
1	100% and below	
2	101–150%	
3	151–200%	
4	Over 200%	
5	Unknown	
6	TOTAL (Sum of Lines 1–5)	

This information is important for confirming that the health center program is meeting the mission of serving vulnerable patients, including those who have low income.

Report all **patients by income as a percent of federal poverty guidelines** on Lines 1–5.

- Report income based on federal poverty guidelines (requires income and household size).
- Report each patient’s most recent income within 12 months prior to the last calendar year visit.
 - If income information has not been collected/confirmed in that period, report the patient’s income as Unknown.
- Income for this table can be patient self-reported.
- Do not use insurance or special population status as a proxy for income.

Primary Medical Insurance

Table 4, Lines 7–12

Line	Principal Third-Party Medical Insurance	0-17 years old (a)	18 and older (b)
7	None/Uninsured		
8a	Medicaid (Title XIX)		
8b	CHIP Medicaid		
8	Total Medicaid (Line 8a + 8b)		
	...		
12	TOTAL (Sum of Lines 7 + 8 + 9 +10 +11)		

Report all patients by primary medical insurance on Lines 7–11.

- Use **medical** insurance at the patient’s last visit in the year.
- Only **comprehensive, portable medical insurance** is counted on this table.
- Dually eligible patients are those that have both Medicare and Medicaid; they are reported on both Line 9a and Line 9. (Line 9a is a subset of Line 9.)

Keys to Remember:

- There is **no unknown medical insurance** category. All patients need to be reported by medical insurance (*including patients who did not receive medical services in the year*).
- Programs that cover a **limited set of services** are not considered comprehensive medical insurance.
- It is important to understand how CHIP is administered in your area to report it accurately.
- Patients by insurance and age must equal detail on ZIP Code Table and Table 3A.

Primary Medical Insurance Categories

Table 4

None/Uninsured	Medicaid (Title XIX)	CHIP (Medicaid <i>OR</i> Other Public)	Medicare	Other Public Insurance (Non-CHIP)	Private Insurance
<p>Patient had no <i>medical</i> insurance at last visit (includes uninsured patients for whom the health center may be reimbursed through grant, contract, or uncompensated care fund).</p>	<p>Medicaid and Medicaid-managed care programs, including those administered by commercial insurers.</p>	<p>If CHIP is paid by Medicaid, report on Line 8b; if CHIP is reimbursed by another payer (e.g., a commercial carrier) outside of Medicaid, report on Line 10b.</p>	<p>Include Medicare, Medicare Advantage, and Dually Eligible.</p> <p>Dually Eligible (Medicare <i>and</i> Medicaid)</p> <p>Subset of Medicare patients who also have Medicaid coverage.</p>	<p>State and/or local government insurance that covers a broad set of services; NOT grant programs reimbursing limited benefits (e.g., EPSDT, BCCCP).</p>	<p>Commercial insurance such as that from an employer, insurance purchased on the federal or state exchanges, and insurance purchased for public employees or retirees.</p>

Remember, primary medical insurance is not necessarily the entity that reimbursed or paid for the services the patient received in the year. Medical insurance is a characteristic of the patient.

Examples: Categorizing Medical Insurance on Table 4

A patient is seen for only dental and mental health in the year, and they do not have insurance that covers those visits.

Even if the patient is seen only for dental/mental health, they **need to be reported on this table by their medical insurance** so that information needs to be collected.

As of the last visit in the year, a patient has a UnitedHealth plan for their medical insurance.

It is important to determine whether that UnitedHealth plan is a **private commercial plan** or whether it is a **public plan (i.e., Medicaid) being administered by UnitedHealth**.

A patient is seen several times in the year, and at the first two visits, they have Medicaid medical coverage and then at the last visit they have a commercial medical plan.

The medical insurance **as of the last visit** of the year is reported, so this patient is reported as privately insured.

For this table, it does not matter whether the health center *can* or *does* bill the patient's insurance.

Managed Care

Table 4, Lines 13a–13c

Report member months for individuals assigned to the health center in medical managed care plans.

- Each month that someone is assigned to the health center by a managed care plan is one member month.
- Member months are reported by TYPE of plan: **Capitated** or **Fee-for-Service**.
 - Capitated managed care plans pay a flat fee per member per month for a negotiated set of services.
 - Fee-for-service managed care plans pay per service rendered for assigned patients.
 - Either type of plan may also have incentives.

Line	Managed Care Utilization	Medicaid (a)	Medicare (b)	Other Public Including Non-Medicaid CHIP (c)	Private (d)	TOTAL (e)
13a	Capitated Member Months					
13b	Fee-for-service Member Months					
13c	Total Member Months (Sum of Lines 13a + 13b)					

Managed Care

Table 4

Keys to Remember

- Managed care organizations (MCOs) may have multiple plans with different payers (e.g., Medicaid, private).
- Health centers receive or can go online to request/download a **monthly enrollment list** of patients in the managed care plan.
- Patients are in managed care if they are **assigned** to the health center for primary care and the health center is responsible for the patient's care.
- MCOs may include financial risk.

There must be a **reasonable relationship** between member months reported in this section and the following:

- Number of patients on Table 4.
- Managed care revenue lines on Table 9D (the table that captures patient service revenue by insurance type).

Only the member months for assigned patients who have medical or comprehensive (medical plus other services) managed care are reported here.

IMPORTANT KEY:

Income, insurance, and managed care reporting on Table 4 ties closely to patient revenue on Table 9D.

We will discuss Table 9D later!

Special Populations

Table 4, Lines 14–26

All health centers report the following:

- Total Agricultural Workers or Dependents (Line 16)
- Total Homeless (Line 23)
- Total School-Based Service Site Patients (Line 24)
- Total Veterans (Line 25)
- Total Patients Served at a Health Center Located In or Immediately Accessible to a Public Housing Site (Line 26)

Health centers who have a Migrant Health Center (MHC) grant:

- Report migrant agricultural patients as migratory (**Line 14**) or seasonal (**Line 15**) on the Universal and Grant reports.

Health centers who have a Health Care for the Homeless (HCH) grant:

- On Universal and Grant reports (**Lines 17–22**), report where patients experiencing homelessness were housed as of their *first visit* in the calendar year.

How Special Population Status Is Identified

Table 4

Line	Special Populations	Number of Patients (a)
14	Migratory (330g awardees only)	Patient-Identified
15	Seasonal (330g awardees only)	Patient-Identified
16	Total Agricultural Workers or Dependents (All health centers report this line)	Patient-Identified
17	Homeless Shelter (330h awardees only)	Patient-Identified
18	Transitional (330h awardees only)	Patient-Identified
19	Doubling Up (330h awardees only)	Patient-Identified
20	Street (330h awardees only)	Patient-Identified
21a	Permanent Supportive Housing (330h awardees only)	Patient-Identified
21	Other (330h awardees only)	Patient-Identified
22	Unknown (330h awardees only)	Patient-Identified
23	Total Homeless (All health centers report this line)	Patient-Identified
24	Total School-Based Service Site Patients (All health centers report this line)	Site-Based
25	Total Veterans (All health centers report this line)	Patient-Identified
26	Total Patients Served at a Health Center Located In or Immediately Accessible to a Public Housing Site (All health centers report this line)	Site-Based

Patient-Identified Lines	Site-Based Lines
<p>This special population is based on characteristics of each individual patient.</p>	<p>This special population is based on whether a patient <i>received services</i> at a site that meets the definition.</p>
<p>Line 16: Total Agricultural Workers or Dependents</p> <ul style="list-style-type: none"> Sub-lines for MHC grantees <p>Line 23: Total Homeless</p> <ul style="list-style-type: none"> Sub-lines for HCH grantees <p>Line 25: Total Veterans</p>	<p>Line 24: Total School-Based Service Site Patients: Total patients who received primary care services at an in-scope school-based site.</p> <p>Line 26: Total Patients Served at a Health Center Located In or Immediately Accessible to a Public Housing Site: Total patients seen at a site that is in or immediately accessible to public housing (not public housing residents).</p>

Excerpt of Table 4

Tables 5, 6A, 6B, and 7

Understanding Services Provided and Their Outcomes

Overview of Clinical Services and Quality Indicators

	Table 5	Table 6A	Table 6B	Table 7
Captures	FTEs, visits, and patients across seven service areas. Integrated mental health and SUD.	Visits and patients who received selected diagnoses and selected services in the calendar year.	Fifteen clinical quality measures, each with a denominator, number of charts reviewed, and numerator.	Three clinical quality outcome measures, each reported by race and ethnicity of patients.
Purpose	Provides a profile of health center personnel, visits providers render, and the number of patients served in each of seven service areas and ancillary categories. The addendum illustrates what portion of care includes integrated behavioral health.	Provides a picture of the frequency and, when compared with other years, trends for selected diagnoses and services.	Measures selected health center processes that, through national standards, are correlated with quality of care for health center patients.	Measures selected outcomes for health center patients with certain characteristics or conditions as a proxy for quality of care, as established by national standards.

Remember, a countable visit on Table 5 is what makes someone a health center patient, and a medical visit on Table 5 is what makes someone eligible for most quality measures.

Understanding the Four Columns

Table 5

Column A: Full-Time Equivalents (FTEs)

All personnel who support in-scope operations are reported by FTE in the area in which they provide services.

Columns B and B2: Clinic and Virtual Visits

Those encounters that meet the definition of a UDS countable visit are reported as visits in Column B or B2 (based on how the visit was done), on the line with the FTE who is credited with the visit.

Column C: Patients

All patients for whom visits are reported in the service area are counted in the patient count cell for that service area.

Understanding the Service Categories

Table 5

Reporting of FTEs, visits, and patients on Table 5 are split across categories that reflect function and services provided.

- Medical Care Services (Lines 1–15)
- Dental Services (Lines 16–19)
- Mental Health Services (Lines 20a–20c)
- Substance Use Disorder Services (Line 21)
- Other Professional Health Services (Line 22)
- Vision Services (Lines 22a–22d)
- Pharmacy Services (Line 23)
- Enabling Services (Lines 24–29)
- Other Programs and Related Services (Line 29a)
- Quality Improvement Personnel (Line 29b)
- Non-Clinical Support Services (Lines 30a–32)

- FTEs are reported in each service category for which your health center has services.
- Service categories that can generate countable visits and patients include medical, dental, mental health, substance use disorder, vision, other professional, and enabling.
- Patients can have visits in one or more service area in the year.

Patients and Visits by *Service* and *Provider Type*

Table 5

FTEs (Col. A)	Visits (Cols. B and B2)	Patients (Col. C)	Key Reminders
<p>All personnel who support in-scope operation are reported.</p> <p>Includes employees, interns, volunteers, residents, contracted personnel; NOT contractors paid FFS.</p> <p><i>Reported by credentials/licensure and duties/function.</i></p> <p>1 FTE = 1 person full-time for entire year. “Full-time” defined by health center.</p>	<p>Clinic (in-person) and virtual visits that meet the definition are counted.</p> <p>Visits must be <i>on the same line</i> with the FTE of the provider who conducted the visit.</p> <p>If a visit is counted in either of these columns, the patient MUST be reported in Column C and be included in the unduplicated patient count on all demographic tables.</p>	<p>This is an unduplicated count of patients <i>by service category</i>.</p> <p>A patient may have visits in multiple service categories, such as having medical, dental, and vision visits in the year. Patients for whom that is true are <i>counted in each of those service categories in Column C</i>. As a result, the total number of patients reported across Column C is generally larger than the unduplicated patient count.</p>	<ul style="list-style-type: none"> • Not all personnel generate visits. See Appendix A in the UDS Manual. • Not all contacts are countable visits. • A single visit may consist of multiple services, but it counts as only one visit. • Only those patients reported on this table are included in the unduplicated patient count on demographic tables and in clinical care tables.

Full-Time Equivalent (FTE) by Position and Service Category

Table 5

- **Report all personnel who support in-scope operations.**
 - Include employees, interns, volunteers, residents, and contracted personnel.
 - Do not include paid referral provider FTEs when paid by service (not by hours).
- **Report personnel by function and credentials.**
 - Personnel time can be allocated across multiple lines.
 - Clinicians should be reported on their line of credentialing.
- **Report FTE: 1 FTE = 1 person full-time for entire year.**
 - “Full-time” is defined by the health center.
 - Employment contract for clinicians.
 - Personnel FTE can exceed 1.0 FTE, *if paid overtime*.

21	Substance Use Disorder Services	
22	Other Professional Services (specify _____)	

Reporting Personnel FTEs

Table 5

- Personnel are reported by position and service category.
- To determine where given personnel is reported, consider the following:
 - Licensed providers are reported on the line of their licensure.
 - ✓ **Example:** An internist should be reported as an internist, even if they work in a pediatric setting.
 - Personnel who are not licensed or who are not working in the area of their licensure are reported based on primary job duties.
 - ✓ **Example:** A nurse who primarily provides case management or care coordination should be reported as a case manager/care coordinator.
- Note that **ONLY** personnel reported on certain lines can generate visits.

Key Reminders:

- [Appendix A](#) in the UDS Manual outlines where (e.g., which line) many personnel should be reported on AND specifies whether a given position is a provider or not, and therefore whether the position can generate visits.
- Visits, *when countable*, must be reported **on the line with the provider** who conducted the visit. Contacts with non-providers are not countable visits.

Example: Calculate FTE

Employees with full benefits*

One full-time staff person worked for 6 months of the year:

1. Calculate base hours for full-time:

Total hours per year:

$$40 \text{ hours/week} \times 52 \text{ weeks} = 2,080 \text{ hours}$$

2. Calculate this staff person's paid hours:

Total hours for 6 months:

$$40 \text{ hours/week} \times 26 \text{ weeks} = 1,040 \text{ hours}$$

3. Calculate FTE for this person:

$$1,040 \text{ hours} / 2,080 \text{ hours} = \mathbf{0.50 \text{ FTE}}$$

Employees with no or reduced benefits*

Together, four individuals worked 1,040 hours scattered throughout the year:

1. Calculate base hours for full-time:

$$\text{Total hours per year: } 40 \text{ hours/week} \times 52 \text{ weeks} = 2,080 \text{ hours}$$

2. Deduct benefits (10 holidays, 12 sick days, 5 continuing medical education [CME] days, and 3 weeks vacation):

$$10 + 12 + 5 + 15 = 42 \text{ days} \times 8 \text{ hours} = 336$$

$$2,080 - 336 = 1,744$$

3. Calculate combined person hours:

$$\text{Total hours: } 1,040 \text{ hours}$$

4. Calculate FTE:

$$1,040 \text{ hours} / 1,744 \text{ hours} = \mathbf{0.60 \text{ FTE}}$$

*Benefits defined as vacation/holidays/sick benefits

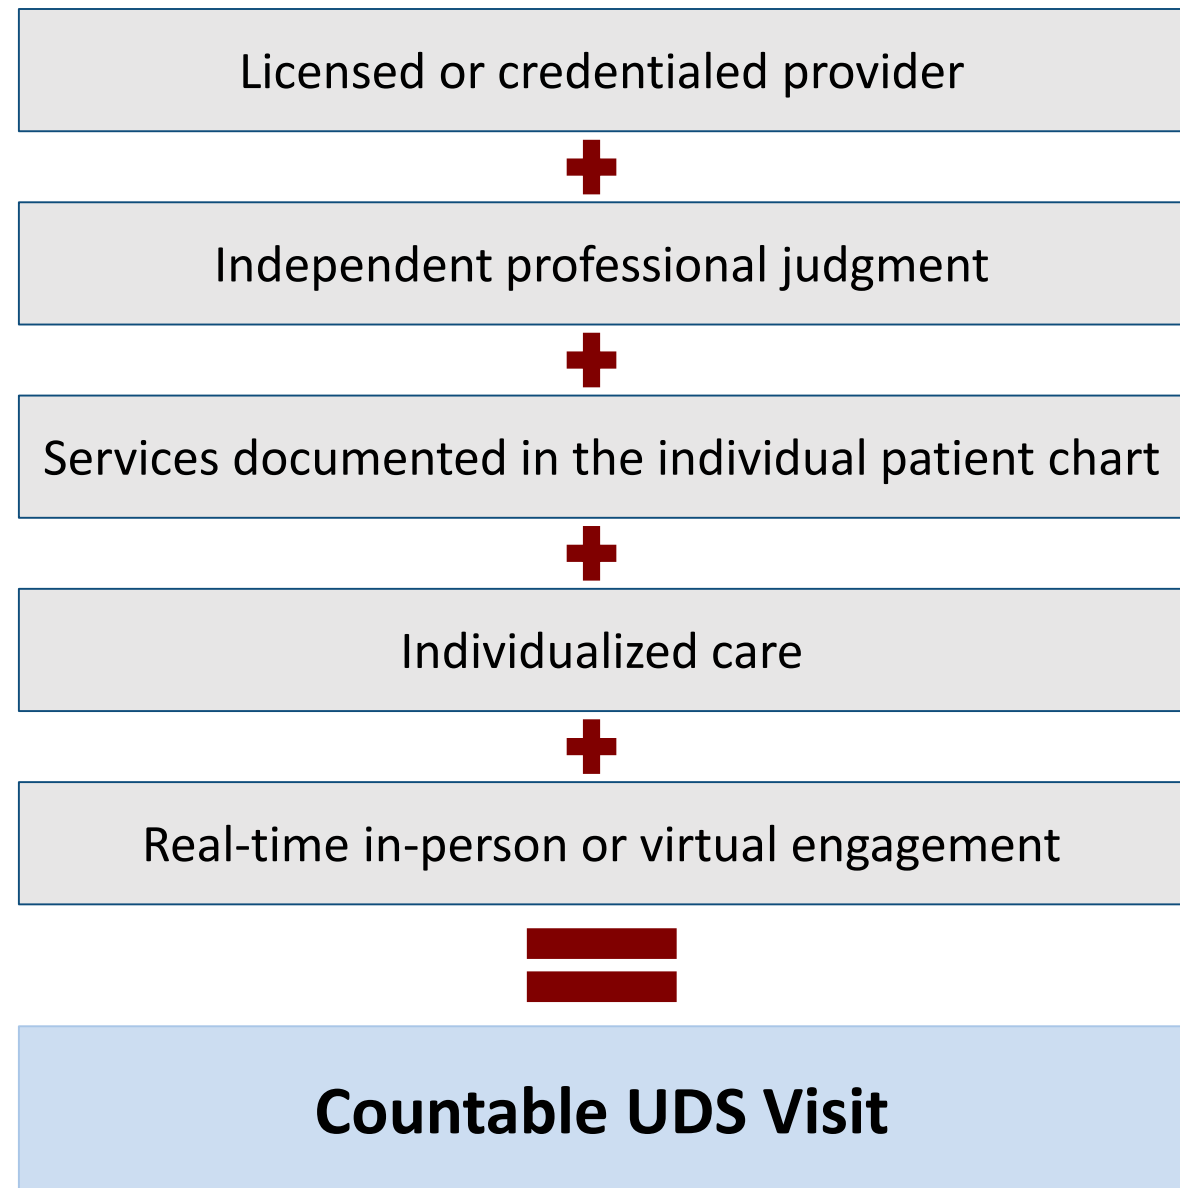

IMPORTANT KEY:

FTE reporting on Table 5 ties closely to costs on Table 8A

We will discuss Table 8A later!

A *patient* on the UDS is someone who has a *countable visit* in any service category on Table 5.

Remember, this definition and its relationship across tables is **central** to accurate reporting.

Counting Multiple Visits

On any given day, a patient may have only one visit per service category per provider counted on the UDS.

- Reminder: Service categories include medical, dental, mental health, substance use disorder, other professional, vision, and enabling.

If multiple providers in a single service category (e.g., two medical providers) deliver multiple services at the *same location* on a single day, count only one visit.

If services are provided by *two different providers* located at *two different sites* on the same day, count two visits.

- A virtual visit and a clinic visit are considered to be two different sites and may both be counted as visits even when they occur on the same day.

Contacts That Do Not, **ALONE**, Count as Visits

Health Screenings or Outreach

Information sessions for prospective patients

Health presentations to community groups

Immunization drives

Group Visits

Patient education classes

Health education classes

Exception: behavioral health group visits

Tests/Ancillary Services

Drawing blood

Laboratory or diagnostic tests

COVID-19 tests or vaccines

Dispensing/Administering Medications

Dispensing medications from a pharmacy

Giving injections

Providing narcotic agonists or antagonists, MAT, etc.

Health Status Checks

Follow-up tests or checks (e.g., patients returning for HbA1c tests)

Wound care

Taking health histories

Examples: Are These Countable Visits on Table 5?

1. Yvonne has not been seen at the health center before. She comes to the health center to get a COVID-19 vaccine. Yvonne signs in, fills out a brief form, and then a nurse administers a one-dose COVID-19 vaccine. Yvonne leaves and is not seen at the health center again.

2. Charles sees his primary care provider at the health center for a regular check up. In that visit, his primary care provider conducts a COVID-19 test and provides a flu vaccine.

3. A nurse at the health center calls a patient to complete several screenings, including social need screening and PHQ-9, in advance of a scheduled appointment the patient has 3 days later.

Examples: Are These Countable Visits on Table 5?, cont.

1. Yvonne has not been seen at the health center before. She comes to the health center to get a COVID-19 vaccine. Yvonne signs in, fills out a brief form, and then a nurse administers a one-dose COVID-19 vaccine. Yvonne leaves and is not seen at the health center again. **NOT A VISIT.**

2. Charles sees his primary care provider at the health center for a regular check up. In that visit, his primary care provider conducts a COVID-19 test and provides a flu vaccine. **YES, A VISIT.**

3. A nurse at the health center calls a patient to complete several screenings, including social need screening and PHQ-9, in advance of a scheduled appointment the patient has 3 days later. **The nurse's contact with the patient to conduct screening is NOT a visit. The visit with the provider 3 days later where the PHQ-9 is reviewed (for example) IS a visit.**

Reporting Visits

Table 5

- Visits must be provided at the health center site or at another approved location (or via telehealth).
- Count visits provided by paid, contracted, AND volunteer providers.
- Include completed paid referral visits.
- Count when *following current patients* in a nursing home, hospital, or at home.
- Do not count if patient is first encountered at a location NOT listed on [Form 5B](#) as part of your health center scope of project or [Form 5C](#) Other Locations and Activities.

Line	Personnel by Major Service Category	FTEs (a)	Clinic Visits (b)	Virtual Visits (b2)	Patients (c)
1	Family Physicians				
2	General Practitioners				
3	Internists				
4	Obstetrician/Gynecologists				
5	Pediatricians				
7	Other Specialty Physicians				
8	Total Physicians (Lines 1–7)				
9a	Nurse Practitioners				
9b	Physician Assistants				
10	Certified Nurse Midwives				
10a	Total NPs, PAs, and CNMs (Lines 9a–10)				
11	Nurses				
12	Other Medical Personnel				
13	Laboratory Personnel				
14	X-ray Personnel				
15	Total Medical Care Services (Lines 8 + 10a through 14)				
16	Dentists				
17	Dental Hygienists				
17a	Dental Therapists				
18	Other Dental Personnel				
19	Total Dental Services (Lines 16–18)				
20a	Psychiatrists				
20a1	Licensed Clinical Psychologists				

Location of Visits: Clinic or Virtual

Table 5, Columns B and B2

Clinic Visits (Column B)

Report visits conducted via *in-person contact* between provider and patient that meet all the requirements discussed earlier for countable visits.

Virtual Visits (Column B2)

Report documented *virtual (telemedicine) contact* between a patient and provider that meets all the requirements discussed earlier for countable visits.

Must be provided using interactive, synchronous audio and/or video telecommunication systems that permit *real-time communication* between the provider and a patient.

Use codes that will result in accurate identification of virtual visits. These include telehealth-specific codes with the CPT or Healthcare Common Procedure Coding System (HCPCS) codes such as G0071, G0406-G0408, G0425-G0427, G2025, modifier “.95,” or Place of Service code “02” to identify virtual visits.

View the [Virtual Visits guidance file](#).

Remote Patient Monitoring (RPM)

RPM

- Is for new and established patients
- Is used to monitor acute and chronic conditions
- Can be provided to a patient with one or more diagnoses

Not a UDS Visit

CPT 99091 – Collection and interpretation of physiologic data, digitally stored and/or transmitted by the patient to the physician, requiring a minimum of 30 minutes of time

CPT 99453 – Device education and training (one-time fee)

CPT 99454 – Device/transmission reimbursement (monthly fee)

CPT 99457 – Remote physiological monitoring (monthly fee, first 20 minutes)

CPT 99458 – Remote physiological monitoring (monthly fee, each additional 20 minutes)

CPT 99473 – Self-measure blood pressure patient education

CPT 99474 – Self-measure blood pressure, 2 readings (BID) for 30 days

Distant Site Audio-Only Telehealth Services

Telephone E&M Service

- Is a provider visit
- Is an audio-only E&M service
- Is for new and established patients
- May be provided to a patient, parent, or guardian
- Is used for a patient visit when video technology is not available

CPT 99441 – 5–10-minute medical discussion

CPT 99442 – 11–20-minute medical discussion

CPT 99443 – 21–30-minute medical discussion

Is a UDS Visit, reported in Column B2, by the provider who did the visit

E-Visit

E-Visit

- Must be patient-initiated
- Is for established patients
- May occur over 7-day period
- Is conducted via patient portal, non-face-to-face
- Is asynchronous (store-and-forward, not real time)

CPT 99421 – Cumulative time 5–10 minutes

CPT 99422 – Cumulative 11–20 minutes

CPT 99423 – Cumulative 21 or more minutes

Not a UDS Visit

Addendum Captures *Integrated Behavioral Health*

Integrated Mental Health Services

Captures the number of **medical visits** that *included mental health (MH) services* provided by medical providers.

Integrated Substance Use Disorder Services

Captures the number of **medical and mental health visits** that *included substance use disorder (SUD) services* provided by medical and MH providers.

 Remember, everything on the Addendum is part of what is already reported elsewhere on Table 5. This is behavioral health care integrated into certain types of visits.

Determining Visits to Include in Addendum

Include, at minimum, all countable visits with specified providers that included the ICD-10-CM codes specified on Table 6A:

- SUD: Table 6A, Lines 18–19a
- MH: Table 6A, Lines 20a–20d

Then, you will report the **number of providers of each type** listed on the addendum that provided those visits and the number of **patients who made up those visits**.

Line	Diagnostic Category	Applicable ICD-10-CM Code	Number of Visits by Diagnosis Regardless of Primacy (a)	Number of Patients with Diagnosis (b)
Selected Mental Health Conditions, Substance Use Disorders, and Exploitations				
18	Alcohol-related disorders	F10-, G62.1, O99.31-		
19	Other substance-related disorders (excluding tobacco use disorders)	F11- through F19- (exclude F17-), G62.0, O99.32-		
19a	Tobacco use disorder	F17-, O99.33-, Z72.0		
20a	Depression and other mood disorders	F30- through F39-		
20b	Anxiety disorders, including post-traumatic stress disorder (PTSD)	F06.4, F40- through F42-, F43.0, F43.1-, F93.0		
20c	Attention deficit and disruptive behavior disorders	F90- through F91-		
20d	Other mental disorders, excluding drug or alcohol dependence	F01- through F09- (exclude F06.4), F20- through F29-, F43- through F48- (exclude F43.0- and F43.1-), F50- through F99- (exclude F55-, F64-, F84.2, F90-, F91-, F93.0, F98-), O99.34-, R45.1, R45.2, R45.5, R45.6, R45.7, R45.81, R45.82, R48.0		

Excerpt of Table 6A

Visits reported on Lines 18-19a that were with **medical or mental health providers** are reported on SUD detail section of T5 addendum.

Visits reported on Lines 20a-20d that were with **medical providers** are reported on MH detail section of Table 5 selected service addendum.

Reporting Personnel in Addendum

In Column A1, report the *number* of providers in each section who provided integrated services.

- **Medical** providers can be counted once in each section if they provide both **MH and SUD services**.
- **Mental health** providers can only be counted once in the addendum, in the SUD section.

Keys to Remember:

- The *number of personnel* on the addendum is *unlikely* to equal the FTE reported in the corresponding line on the main part of Table 5.
 - Look at the number of personnel per FTE for reasonableness.
 - ✓ For example, if there are 11.5 physician FTEs on the main part of T5 and 119 physician personnel in the MH section of the addendum, then the average FTE per physician is *less than 0.1*.

Line	Personnel by Major Service Category: Mental Health Service Detail	Personnel (a1)	Clinic Visits (b)	Virtual Visits (b2)	Patients (c)

20a04	Certified Nurse Midwives				
Line	Personnel by Major Service Category: Substance Use Disorder Detail	Personnel (a1)	Clinic Visits (b)	Virtual Visits (b2)	Patients (c)
21a	Physicians (other than Psychiatrists)				
21b	Nurse Practitioners (Medical)				
21c	Physician Assistants				
21d	Certified Nurse Midwives				

Medical FTEs, visits, and patients are reported in the medical section of the main part of Table 5 (shown above left).

Those same providers, visits, and patients *may also* be reported on the MH/SUD addendum *if/when* MH and/or SUD services were provided during those medical visits (shown above right).

Reporting SUD Treatment Provided as Part of MH Visits in the Addendum

MH FTEs, visits, and patients are reported on Lines 20a–20 of the main part of Table 5. These MH personnel, visits, and patients **may also** be reported on the addendum *if/when* they also included SUD services.

Line	Personnel by Major Service Category	FTEs (a)	Clinic Visits (b)	Virtual Visits (b2)	Patients (c)
20a	Psychiatrists				
20a1	Licensed Clinical Psychologists				
20a2	Licensed Clinical Social Workers

	LCSWs	5,188,663			509,426	9.8%
	Other Lic. MH Staff	5,517,030			543,400	9.8%
	Total Mental Health	14,069,298			1,403,105	10.0%

*Highest % medical provider providing mental health services

** Highest % medical and mental health providers providing SUD services

Example: Integrated MH in Medical Visit

A family physician sees a patient in person with a diagnosis of depression and manages the patient's depression medication during the medical visit.

This visit is counted twice across the two sections in Table 5: *once* in the medical section of the main part of Table 5 and *once* in the mental health portion of the addendum.

- **Table 5, Staffing and Utilization:** The family physician FTE is reported in Line 1, Column A of Table 5. The visit is reported on Line 1, Column B.
- **Table 5, Selected Service Detail Addendum, Mental Health Service Detail:** Due to the integrated behavioral health, the family physician is *also* counted as 1 personnel in Line 20a01, Column A1, and the visit is *also* counted in Line 20a01, Column B.

In no case is a visit to be reported twice on the main part of Table 5. The visit and patient need to also be reported on the relevant lines in Table 6A.

Example: Integrated MH and SUD in a Medical Visit

A nurse practitioner (NP) sees a patient for a routine visit and during that visit addresses the patient's anxiety diagnosis and tobacco use disorder.

This visit is counted three times across the two sections in Table 5: *once* in the medical section of the main part of Table 5, *once* in the mental health portion of the addendum, and *once* in the SUD portion of the addendum.

- **Table 5, Staffing and Utilization:** The NP FTE is reported in Line 9a, Column A of the main part of Table 5. The visit is reported on Line 9a, Column B, and the patient is included in Line 15, Column C.
- **Table 5, Selected Service Detail Addendum:** Due to the integrated MH and SUD treatment, the provider, patient, and visit are reported on both the NP line of the MH portion of the addendum and the NP line of the SUD portion of the addendum.

In no case is a visit to be reported twice on the main part of Table 5. The visit and patient need to also be reported on the relevant lines in Table 6A.

Example: Integrated SUD in MH Visit

A licensed clinical psychologist sees a patient via telehealth for depression complicated by an alcohol-related disorder.

This visit is counted twice across the two sections in Table 5: *once* in the mental health section of the main part of Table 5 and *once* in the SUD portion of the addendum.

- **Table 5, Staffing and Utilization:** Report the depression treatment services visit and clinical psychologist FTE on Line 20a1, and report the patient in the total on Line 20. The visit would be in Column B2, because it's a virtual visit.
- **Table 5, Selected Service Detail Addendum, Substance Use Disorder Service Detail:** Due to the integrated SUD services, report the alcohol-related treatment provided by the clinical psychologist (personnel, visit, & patient) on Line 21f. The visit would be in Column B2, because it's a virtual visit.

In no case is a visit to be reported twice on the main part of Table 5. The visit and patient need to also be reported on the relevant lines in Table 6A.

Find Resources to Help

HRSA BPHC UDS Resources site [Staffing and Utilization section](#) includes the following resources:

- Virtual visit guidance
- Nurse visit guidance
- Selected Service Detail Addendum guidance

Uniform Data System (UDS) Training and Technical Assistance

Last updated: August 29, 2022

Table 6A: Selected Diagnoses and Services Rendered

2022 Changes:

- One line added
- Ten lines have updated codes

Table 6A

Captures selected diagnoses and services provided to health center patients (those reported on patient demographic tables), not to the general public.

Report all visits and patients meeting the specified criteria (diagnosis or service, and codes).

- **Diagnoses** are reported where the indicated diagnosis is listed as part of a countable visit.
 - Diagnoses are Lines 1 through 20f.
- **Services and procedures** are counted when *provided at any point during the year to a health center patient and documented in that patient's chart.*
 - Services and procedures are Lines 21 through 34.

Selected Diagnoses and Services

Table 6A

Line	Diagnostic Category	Applicable ICD-10-CM Code	Number of Visits by Diagnosis Regardless of Primacy (a)	Number of Patients with Diagnosis (b)
Selected Infectious and Parasitic Diseases				
1–2	Symptomatic/Asymptomatic human immunodeficiency virus (HIV)	B20, B97.35, O98.7-, Z21		
3	Tuberculosis	A15- through A19-, O98.0-		
4	Sexually transmitted infections	A50- through A64-		
4a	Hepatitis B	B16.0 through B16.2, B16.9, B17.0, B18.0, B18.1, B19.1-, O98.4-		
4b	Hepatitis C	B17.1-, B18.2, B19.2-		
4c	Novel coronavirus (SARS-CoV-2) disease	U07.1		
4d	Post COVID-19 condition	U09.9		
Selected Diseases of the Respiratory System				
5	Asthma	J45-		
6	Chronic lower respiratory diseases	J40 (count J40 only when code U07.1 is not present), J41- through J44-, J47-		
6a	Acute respiratory illness due to novel coronavirus (SARS-CoV-2) disease	J12.82, J12.89, J20.8, J40, J22, J98.8, J80 (count codes listed only when code U07.1 is also present)		
Selected Other Medical Conditions				
7	Abnormal breast findings, female	C50.01-, C50.11-, C50.21-, C50.31-, C50.41-, C50.51-, C50.61-, C50.81-, C50.91-, C79.81, D05-, D48.6-, D49.3, N60-, N63-, R92-		

- **Column A:** Report the number of *visits* with the selected diagnosis or service.
 - If a patient has more than one category of reportable service or diagnosis during a visit, count each.
 - Do not count multiple services of the same type (i.e., that would be on the same line) at one visit.
- **Column B:** Report the number of *unduplicated patients* receiving the service.

New Line for Post COVID-19 Condition

Table 6A, Line 4d

Line 4d: Post COVID-19 Condition (ICD-10 U09.9)

- **Column A** = Number of visits at which the selected ICD-10 code for post COVID-19 condition has been coded.
- **Column B** = Number of patients who have had one or more visits where post COVID-19 condition has been coded.

Keys to Remember

- Patients and visits with this diagnosis are reported regardless of primacy.
- In other words, if a patient is treated for pneumonia and post COVID-19 condition, both pneumonia and post COVID-19 condition are documented in the patient health record and reflected in the corresponding lines of Table 6A.

Table 6A: Updated Codes

Selected Diagnoses and Services Rendered

Table 6A: Selected Diagnoses and Services Rendered

* Indicates change from 2021

Line	Diagnosis/Service	2021 Codes	2022 Codes
Selected Infectious and Parasitic Diseases			
1-2	Symptomatic/Asymptomatic human immunodeficiency virus (HIV)	B20, B97.35, O98.7-, Z21	B20, B97.35, O98.7-, Z21
3	Tuberculosis	A15- through A19-, O98.0-	A15- through A19-, O98.0-
4	Sexually transmitted infections	A50- through A64-	A50- through A64-
4a	Hepatitis B	B16.0 through B16.2, B16.9, B17.0, B18.0, B18.1, B19.1-, O98.4-	B16.0 through B16.2, B16.9, B17.0, B18.0, B18.1, B19.1-, O98.4-
4b	Hepatitis C	B17.1-, B18.2, B19.2-	B17.1-, B18.2, B19.2-
4c	Novel coronavirus (SARS-CoV-2) disease	U07.1	U07.1
4d	Post COVID-19 condition		U09.9
Selected Diseases of the Respiratory System			
5	Asthma	J45-	J45-
6	Chronic lower respiratory diseases	J40 (count only when code U07.1 is not present), J41- through J44-, J47-	J40 (count J40 only when code U07.1 is not present), J41- through J44-, J47-
6a	Acute respiratory illness due to novel coronavirus (SARS-CoV-2)	J12.89, J20.8, J40 (count only when code U07.1 is present), J22,	J12.82, J12.89, J20.8, J40, J22, J98.8, J80 (count codes listed only)

- Applicable ICD-10-CM, CPT4/I/II/PLA, and HCPCS codes are updated for 2022.
- 2022 Table 6A code changes [available for download](#) (shown in screenshot to the left).
 - 10 lines have code updates.
- Codes are updated as of April 2022.

PrEP Management Reporting on Table 6A

PrEP Management visits and patients are reported on Table 6A, Line 21e.

In addition to using the codes listed on Table 6A to help identify relevant visits, health centers may consider the following to ensure that only PrEP for HIV prevention is included:

- No HIV diagnosis in problem list.
- Prescription instructions should not mention oPEP, nPEP or post-exposure prophylaxis.
- Related summary should only mention nPEP if PrEP is also mentioned, indicating transition from nPEP to PrEP.
- Prescription instructions likely mention it is for PrEP.
- No concurrent antiretroviral medication.

Validating PrEP Reporting

In reviewing PrEP management visits and patients on Table 6A, compare to related information to determine if numbers are reasonable:

Unlikely to have more PrEP management patients than HIV tests, as an HIV test (Line 21) is needed to start PrEP (Line 21e).

Review PrEP prescriptions in your state on the [AHEAD dashboards](#), as any single health center is unlikely to have more PrEP visits/ patients than the state as a whole.

Key Notes for Table 6A

Column A describes the total number of visits at which the service/test/diagnosis was present and coded to the patients in Column B.

Only report tests or procedures that are:

- **performed by the health center, or**
- not performed by the health center, but **paid for by the health center, or**
- not performed by the health center or paid for by the health center, **but whose results are returned to the health center provider to evaluate and provide results to the patient.**

Note that all reporting on Table 6A is only for health center patients.

- Patients must have a *countable* visit on Table 5 and be included in unduplicated patients on patient demographic tables in order to be counted on Table 6A.
- Mass testing/screening, tests done for the community, etc. are not counted on Table 6A, unless for a health center patient and documented in that health center patient's record.

Tables 6B & 7: Clinical Quality Measures (CQMs)

2022 Changes:

- Measures aligned with updated eCQMs, wherever available
- In alignment with those updated eCQMs, three existing measures have major modifications

Clinical Process and Outcome Measures

Tables 6B and 7

Screening and Preventive Care

Cervical Cancer Screening

Breast Cancer Screening

Body Mass Index (BMI) Screening and Follow-Up Plan

Tobacco Use: Screening and Cessation Intervention

Colorectal Cancer Screening

HIV Screening

Screening for Depression and Follow-Up Plan

Maternal Care and Children's Health

Early Entry into Prenatal Care

Low Birth Weight

Childhood Immunization Status

Weight Assessment and Counseling for Nutrition and Physical Activity for Children and Adolescents

Dental Sealants for Children between 6-9 Years

Chronic Disease Management

Statin Therapy for the Prevention and Treatment of Cardiovascular Disease

Ischemic Vascular Disease (IVD): Use of Aspirin or Another Antiplatelet

HIV Linkage to Care

Depression Remission at Twelve Months

Controlling High Blood Pressure

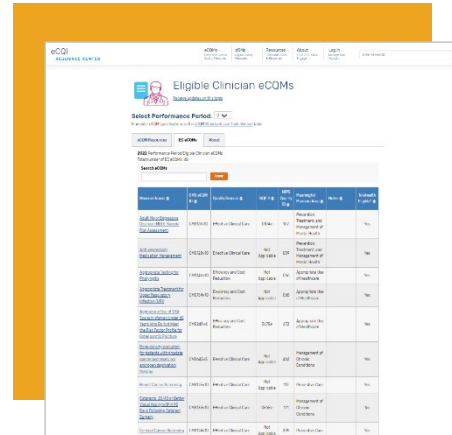

Diabetes: Hemoglobin A1c (HbA1c) Poor Control

Clinical Quality Measure (CQM) Specifications

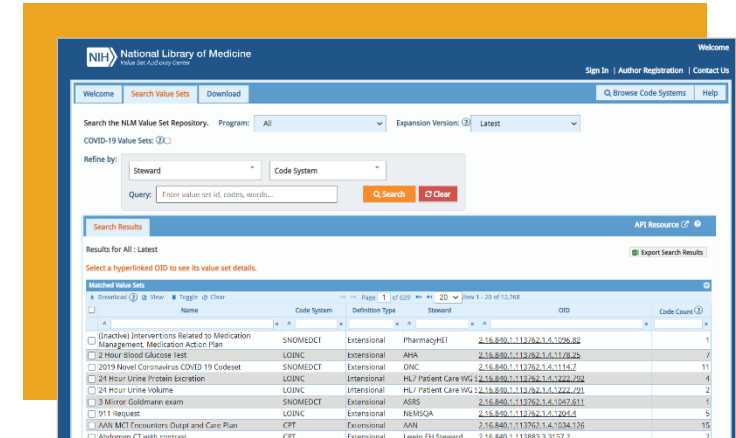

The [UDS Manual](#) provides an overview, UDS-specific considerations, and links to measure specifications.

The manual links to the [eCQI Resource Center](#), where measure information, specifications, and data elements are found.

The eCQI Resource specifications specify the data elements and their value sets.

The codes that make up each value set are available from the [Value Set Authority Center \(VSAC\) site](#).

Remember, HRSA is not the measure steward and therefore does not design specific measures. They are nationally defined.

Components of Each Clinical Measure

Denominator

- Identifies the group of patients that the measure is looking at to determine compliance.
- Equal to the initial population identified in the CQM.
- Reported in Column A.

Numerator

- Measures whether the service, event, or outcome requirements were met.
- Each patient in the denominator is assessed to determine if they meet the numerator.
- Reported in Column C.

Exclusions and Exceptions

- **EXCLUSIONS:** Patients who meet exclusion criteria are not to be considered for the measure. They are removed from the denominator before determining if numerator criteria are met.
- **EXCEPTIONS:** Patients who do meet denominator criteria but do not meet numerator criteria and meet any of the exceptions criteria are removed from the denominator.

2022 Clinical Quality Measure Tables

Updates

- There are several updates to how data can be collected and reported.
- There are similarly several clarifications for specific measures and requirements.

Changes

- Three eCQMs have changes to their specifications.

Measures Updated to Align with eCQMs

Tables 6B and 7 were updated to align with the latest Centers for Medicare & Medicaid Services (CMS) electronic-specified clinical quality measures (eCQMs). Review [Clinical Quality Measures handout](#) for 2022 updates.

Table	Line/Columns	Quality Care Measure	Updated eCQM
6B	10	Childhood Immunization Status	CMS117v10
6B	11	Cervical Cancer Screening	CMS124v10
6B	11a	Breast Cancer Screening	CMS125v10
6B	12	Weight Assessment and Counseling for Nutrition and Physical Activity for Children and Adolescents	CMS155v10
6B	13	Preventive Care and Screening: Body Mass Index (BMI) Screening and Follow-Up Plan	CMS69v10
6B	14a	Preventive Care and Screening: Tobacco Use: Screening and Cessation Intervention	CMS138v10
6B	17a	Statin Therapy for the Prevention and Treatment of Cardiovascular Disease	CMS347v5
6B	19	Colorectal Cancer Screening	CMS130v10
6B	20a	HIV Screening	CMS349v4
6B	21	Preventive Care and Screening: Screening for Depression and Follow-Up Plan	CMS2v11
6B	21a	Depression Remission at Twelve Months	CMS159v10
7	2a–2c	Controlling High Blood Pressure	CMS165v10
7	3a–3f	Diabetes: Hemoglobin A1c (HbA1c) Poor Control (>9%)	CMS122v10

Table 6B: Dental Sealants

- Dental Sealants (CMS277v0) electronic specifications have not been updated and are no longer readily accessible online at United States Health Information Knowledgebase (USHIK).
- Find the value sets used in the specifications on the [BPHC UDS Resources Clinical Care Page](#).

Dental Sealants for Children between 6–9 Years (CMS277v0) Value Sets

Dental Sealants for Children between 6-9 Years, CMS277v0, is a draft clinical quality measure stewarded by the Dental Quality Alliance-American Dental Association. For the purposes of Uniform Data System (UDS) reporting, the Dental Sealants for Children between 6–9 Years measure continues to align with CMS277v0, but electronic specifications for this measure have not been updated and are no longer readily accessible online. To assist health centers with UDS reporting of this measure, the CMS277v0 value set codes used in the specifications (exported from the United States Health Information Knowledgebase (USHIK) website in 2020) are provided below.

Category	Data Element	Value Set ¹
attribute	attribute: Permanent mandibular left first molar tooth	Permanent mandibular left first molar tooth 2.16.840.1.113762.1.4.1065.29 SNOMEDCT (2014-03) 245604007
attribute	attribute: Permanent mandibular right first molar tooth	Permanent mandibular right first molar tooth 2.16.840.1.113762.1.4.1065.27 SNOMEDCT (2014-03) 245592005
attribute	attribute: Permanent maxillary left first molar tooth	Permanent maxillary left first molar tooth 2.16.840.1.113762.1.4.1065.28 SNOMEDCT (2014-03) 245579007
attribute	attribute: Permanent maxillary right First Molar Tooth	Permanent maxillary right First Molar Tooth 2.16.840.1.113762.1.4.1065.26 SNOMEDCT (2014-03) 245568002

Clarifications to Tables 6B and 7

Table	Section	Description of Clarification
6B and 7	Viewable and/or accessible results	For clinical quality measures requiring the completion of screenings, tests, or procedures to meet the numerator criteria, the findings of the screenings, tests, or procedures <i>must be</i> accessible in the patient health record.
6B	Preventive Care and Screening: Body Mass Index (BMI) Screening and Follow-Up Plan	Provided clarification that the follow-up plan must be on or after the most recent documented BMI when BMI is outside of normal parameters, to align with the measure steward .
7	Diabetes: Hemoglobin A1c (HbA1c) Poor Control (>9%)	Slight adjustment to wording in numerator to clarify that patients missing an HbA1c in the year are also included in numerator (as Poor Control).

Sampling No Longer an Option for CQMs

- Chart sampling is no longer an option for reporting CQMs.
- Now, Column B must equal Column A OR be 80% or more of Column A.
 - You'll report all patients who fit the criteria (same as Column A), or a number equal to or greater than 80% of Column A.
- New title for Second Column: Number of Records Reviewed (b).

If your health center does not have an EHR in use, contact the [UDS Support Center](#) to discuss options for reporting.

Line	Example: Childhood Immunization Status	Total Patients with 2nd Birthday (a)	Number of Records Reviewed (b)	Number of Patients Immunized (c)
10	MEASURE: Percentage of children 2 years of age who received age-appropriate vaccines by their 2nd birthday	250	250	139

Line	Example: Childhood Immunization Status	Total Patients with 2nd Birthday (a)	Number of Records Reviewed (b)	Number of Patients Immunized (c)
10	MEASURE: Percentage of children 2 years of age who received age-appropriate vaccines by their 2nd birthday	250	215	139

Table 6B: Existing Measure Modified

Tobacco Use: Screening and Cessation Intervention ([CMS138v10](#))

- The measure description and numerator have changed:
 - Percentage of patients aged 18 years and older who were screened for tobacco use **one or more times during the measurement period** AND who received tobacco cessation intervention if identified as a tobacco user.

2021 Measure	2022 Measure
Percentage of patients aged 18 years and older who were screened for tobacco use one or more times within 12 months AND who received tobacco cessation intervention if identified as a tobacco user	Percentage of patients aged 18 years and older who were screened for tobacco use one or more times during the measurement period AND who received tobacco cessation intervention if identified as a tobacco user

Table 6B: Existing Measure Modified

Statin Therapy for the Prevention and Treatment of Cardiovascular Disease ([CMS347v5](#))

2021 Denominator	2022 Denominator
Patients 21 years of age and older who have an active diagnosis of ASCVD	Patients who have an active diagnosis of ASCVD
Patients 21 years of age and older who ever had a fasting or direct laboratory result of LDL-C greater than or equal to 190 mg/dL	Patients 20 years of age and older who ever had a laboratory result of LDL-C greater than or equal to 190 mg/dL
Patients 40 through 75 years of age with Type 1 or Type 2 diabetes and with an LDL-C result of 70–189 mg/dL recorded as the highest fasting or direct laboratory test result in the calendar year or the 2 years prior	Patients 40 through 75 years of age with Type 1 or Type 2 diabetes

- The population included for assessment (denominator) has changed.
- Denominator exceptions have been revised:
 - Now **includes** patients who received hospice care during the measurement period.
 - **Removed as a denominator exception:** “Patients 40 through 75 years of age with diabetes whose most recent fasting or direct LDL-C laboratory test result was less than 70 mg/dL and who are not taking statin therapy.”
 - Now **includes** statin-associated muscle symptoms as a denominator exception.

Table 7: Existing Measure Modified

Controlling High Blood Pressure ([CMS165v10](#))

- The population included for assessment (denominator) has changed.
- Specification guidance has been updated to further clarify blood pressure readings that meet compliance:
 - Taken in-person by a clinician
 - Measured remotely by an electronic monitoring device capable of transmitting the blood pressure data to the clinician
 - Taken by a remote monitoring device and conveyed by the patient to the clinician

2021 Denominator

Patients 18–85 years of age who had a visit and diagnosis of essential hypertension overlapping the measurement period or the year prior to the measurement period

2022 Denominator

Patients 18–85 years of age who had a visit and diagnosis of essential hypertension **starting before and continuing into, or starting during the first 6 months** of the measurement period

Tables 6B and 7: Prenatal Care and Birth Outcome Measures

2022 Change:

Age of prenatal patients on Table 6B is now reported as of December 31

Tables 6B and 7: Prenatal and Birth Outcome Measures

Health center patients who initiate prenatal care with the health center or its referral network are counted in the **Prenatal section of Table 6B** and tracked and reported in the **Delivery and Birth Outcomes section of Table 7**.

- Pages 88–90 and 119–121 of the [2022 UDS Manual](#) detail the health center UDS reporting requirements for prenatal care and related delivery and birth outcomes.

Prenatal care initiated with “the health center or its referral network” refers to:

- Prenatal care initiated with the health center directly *OR*
- Prenatal care initiated with a provider/entity with which the health center has *formal referral contractual agreements* (as indicated in Column II of [Form 5A](#)) *OR*
- Prenatal care initiated with a provider/entity with which the health center has *formal written referral arrangements* (as indicated in Column III of [Form 5A](#)).

Prenatal care and related delivery and birth weight outcomes are reported on the UDS regardless of how or by whom the care was provided, therefore *tracking systems must be in place for all that apply*.

Maternal Care: Prenatal and Birth Outcome Measures

Table 6B Prenatal Care Patients

- Report ALL prenatal care patients who received prenatal care services (either from the health center directly or by referral from the health center) during the calendar year.
- Report prenatal patients by age and by trimester of entry.

Table 7: Deliveries

- Report all **prenatal care patients who delivered** during the calendar year by **race and ethnicity of the patient delivering**.
- Include stillbirths and multiple births, each as one delivery.
- Miscarriages are not considered deliveries.

Table 7: Birth Outcomes

- Report **babies** according to their birth weight in grams by **race and ethnicity of baby**.
- If multiple births, report each baby separately by birthweight as well as race and ethnicity.
- If stillbirth, do not report the baby in the birth outcome section.

 The numbers in these three sections will NOT equal each other.

Prenatal Patients by Age and Entry into Prenatal Care

Table 6B

- **Line 0:** Mark the check box if your health center provides prenatal care through direct *referral only*.
- Lines 1–6: Report all prenatal care patients by their age *as of Dec. 31 (change for this year!)*.
- Lines 7–9: Report all prenatal care patients by the trimester they began prenatal care:
 - Prenatal care begins with a comprehensive prenatal care physical exam.
 - Report in Column A if care *began at your health center* (including any patient you may have referred out for care).
 - Report in Column B if care *began with another provider* and was then transferred into your health center’s care.

Line 0, Section A (Lines 1–6), and Section B (Lines 7–9)

0	Prenatal Care Provided by Referral Only (Check if Yes)
---	---

Line	Age	Number of Patients (a)
1	Less than 15 years	
2	Ages 15–19	
3	Ages 20–24	
4	Ages 25–44	
5	Ages 45 and over	
6	Total Patients (Sum of Lines 1–5)	

Line	Early Entry into Prenatal Care	Patients Having First Visit with Health Center (a)	Patients Having First Visit with Another Provider (b)
7	First Trimester		
8	Second Trimester		
9	Third Trimester		

Deliveries and Birth Outcomes

Table 7

- Column 1A:** Report prenatal care *patients who delivered* during the year (*exclude miscarriages*) *by their race and ethnicity*.
 - Report only one patient as having delivered for multiple births.
 - Report on patients who were successfully referred out for care.
- Columns 1B–1D:** Report each live birth by *birth weight* (*exclude stillbirths*) *and by race and ethnicity of baby*.
 - Count twins as two births, triplets as three, etc.
 - Column 1D ($\geq 2,500$ grams) is normal birth weight.
 - Column 1C (1,500–2,499 grams) is low birth weight.
 - Column 1B ($< 1,500$ grams) is very low.

Line	Race and Ethnicity	Prenatal Care Patients Who Delivered During the Year (1a)	Live Births: <1500 grams (1b)	Live Births: 1500–2499 grams (1c)	Live Births: ≥ 2500 grams (1d)
Hispanic or Latino/a

2b2	Other Pacific Islander				
2c	Black/African American				
2d	American Indian/Alaska Native				
2e	White				
2f	More than One Race				
2g	Unreported/Chose Not to Disclose Race				
	<i>Subtotal Non-Hispanic or Latino/a</i>				

Two lines not shown.

Deliveries and Birth Outcomes

Table 7 Lines 0 and 2

Section A

- Line 0: Number of health center patients who are pregnant and HIV positive regardless of whether or not they received prenatal care from the health center.
- Line 2: Number of deliveries performed by health center clinicians, including deliveries to non–health center patients.

Line	Description	Patients (a)
0	HIV-Positive Pregnant Patients	
2	Deliveries Performed by Health Center’s Providers	

View the [Prenatal and Birth Outcomes Fact Sheet](#) for more information.

Where Are These Patients Reported in Prenatal Section(s)?

1. A 23-year-old patient was seen in December of 2021 for prenatal care in the health center. The patient then had a 2,750-gram baby on January 13, 2022.

2. A 32-year-old patient is seen in the health center in early 2022, has a pregnancy test, and is found to be pregnant. The nurse gives the patient a list of nearby prenatal care providers who are accepting new patients. The patient is seen again in late 2022 for allergies and a COVID-19 test. At that visit, the patient has the new baby in tow.

Where Is This Patient Reported in Prenatal Section(s)?

A 23-year-old patient was seen in December of 2021 for prenatal care in the health center. The patient then had a 2,750-gram baby on January 13, 2022.

The patient is reported in the following prenatal-related sections:

- This patient is reported on **Table 6B** as a prenatal patient, by **age** (Line 3) and **Trimester of Entry**.
- This patient is **ALSO reported as a delivery on Table 7**, Column 1A by their race and ethnicity.
- The patient's baby is reported in **Column 1D** ($\geq 2,500$ grams) by the race and ethnicity of the baby.

Where Is This Patient Reported in Prenatal Section(s)?, cont.

A 32-year-old patient is seen in the health center in early 2022, has a pregnancy test, and is found to be pregnant. The nurse gives the patient a list of nearby prenatal care providers who are accepting new patients. The patient is seen again in late 2022 for allergies and a COVID-19 test. At that visit, the patient has the new baby in tow.

- **This patient is not reported as a prenatal patient on the UDS.** The patient was not referred for prenatal care and therefore is not a prenatal patient of the health center.

Find Resources to Help: Clinical Care

HRSA BPHC UDS Resources site [Clinical Care section](#) includes the following resources:

- UDS Clinical Quality Measures (CQM) Criteria

Tables 8A, 9D, & 9E

Understanding Costs and Revenues for Health Center Scope

Overview of Financial Tables

	Table 8A	Table 9D	Table 9E
Captures	Costs, both direct and overhead, incurred in the year for the health center scope of project.	Patient-related charges and adjustments from the calendar year; patient-related revenue received in the year.	Other revenue (non-patient-service generated) by the entity from which the revenue was received in the year.
Purpose	Describes how the health center's resources are expended both overall and by service area.	Provides a picture of health center patient service revenue by payer and type of payment. Combined with Table 9E, it provides information on how health center costs are covered.	Provides an overview of grant and other funding by source, which, along with Table 9D, illustrates how health center operations are funded.

Table 8A: Financial Costs

2022 Changes: No major changes

Financial Costs

Table 8A Columns

Financial costs are reported across **3 columns**, in Columns A–C, and **11 cost centers**, captured in Lines 1–15.

Cost Center (Lines 1–15)	Accrued Cost (Column A)	Allocation of Facility and Non-Clinical Support Services (Column B)	Total Cost After Allocation of Facility and Non-Clinical Support Services (Column C)
<ul style="list-style-type: none"> • Medical • Dental • Mental Health • Substance Use Disorder • Pharmacy & Pharmaceuticals • Other Professional • Vision • Enabling • Other Program-Related Services • Non-Clinical Support (Admin) • Facility 	<ul style="list-style-type: none"> • Report accrued direct costs • Include costs of: <ul style="list-style-type: none"> ▪ Personnel (both staff and contracted) ▪ Fringe benefits ▪ Supplies ▪ Equipment ▪ Depreciation ▪ Related travel • No bad debt costs 	<ul style="list-style-type: none"> • Allocate Facility and Non-Clinical Support Services costs to all other cost centers (Lines) as overhead • Must equal Line 16, Column A, representing overhead costs incurred by all cost centers 	<ul style="list-style-type: none"> • Sum of Columns A + B (calculated automatically in EHBs) • Represents cost to operate service by cost center • Used to calculate cost per visit and cost per patient

13	Total Enabling and Other Services (Sum of Lines 11, 12, and 12a)	

Pharmacy Reporting on Table 8A

Health centers with pharmacy programs have many considerations for reporting on the UDS. Some tips for reporting Table 8A accurately:

- **Dispensing fees** for contract pharmacy (e.g., 340B) are reported on Line 8a, Pharmacy, separate from the cost of drugs).
- **Costs of pharmaceuticals** (either for in-house pharmacy or contract pharmacy) are reported on Line 8b.
- Administrative or overhead costs for the contract pharmacy program, such as the clinic's in-house 340B manager or contract manager, are to be allocated to Line 8a, Pharmacy, in Column B.
- Report **pharmacy assistance program** on Line 11e, in the enabling section, not in Pharmacy!
- **Donated drugs** are reported on Line 18, Donated Facilities, Services, and Supplies; value at 340B prices.

Column A, Lines 14–16

Table 8A

- Line 14:** Facility-related expenses, including direct personnel costs, rent or depreciation, mortgage interest payments, utilities, security, groundskeeping, janitorial services, maintenance, etc. Includes personnel whose FTEs are reported on Table 5, Line 31.
- Line 15:** Costs for all personnel whose FTE is reported on Table 5, Lines 30a–30c and 32, including corporate administration, billing collections, medical records and intake personnel, facility and liability insurance, legal fees, practice management system, and direct non-clinical support costs (travel, supplies, etc.).
 - Include malpractice insurance in the service categories, not here.
- Line 16:** Total indirect costs to be allocated in Column B.

Line	Cost Center	Accrued Cost (a)	Allocation of Facility and Non-Clinical Support Services (b)	Total Cost After Allocation of Facility and Non-Clinical Support Services (c)
Facility and Non-Clinical Support Services and Totals				
14	Facility			
15	Non-Clinical Support Services			
16	Total Facility and Non-Clinical Support Services (Sum of Lines 14 and 15)			

Allocating Overhead Expenses to Column B

Three Step Method

Step 1: Allocate Facility (Line 14)

- Identify square footage utilized by each cost center and cost per square foot.
- Distribute square footage costs to each cost center across Column B.

Step 2: Allocate Non-Clinical Support Services (Line 15)

- Distribute non-clinical support costs to the applicable service area/cost center.
 - Include decentralized front desk personnel, billing and collection systems and personnel, etc.
 - Consider lower allocation of overhead to contracted services.
- **Step 3:** Allocate remaining overhead costs using straight-line method.
 - Straight-line method means allocating non-clinical support services costs based on the proportion of net costs for each service category.

There are multiple ways that facility and non-clinical support services (Lines 14 and 15, Column A) may be allocated to the cost centers in Column B (Lines 1–13).

Use the simplest method that accurately portrays the use of facility and non-clinical support services and distribution of costs.

Reporting Donations

Table 8A and Table 9E

Donated Facilities, Services, and Supplies

- Donations of vaccines, pharmaceuticals, tests, etc.
- Volunteer time or in-kind services
- Health center space that is provided at no cost; donated facilities

Reported on Line 18, Column C of Table 8A

Resource: [Reporting Donations in the UDS](#)

Cash Donations

- Cash received from fundraising
- Direct monetary donations
- Revenue from fundraising programs like Amazon Smile

Reported on Line 10 of Table 9E

Table 9D: Patient Service Revenue

2022 Change: No major changes

Report (Columns)

- Column A: Charges (2022)
- Column B: Collections (cash basis)
- Columns C1–C4: Reconciliations
- Column D: Contractual adjustments
- Column E: Self-pay sliding discounts
- Column F: Self-pay bad debt

By Payer (Lines)

- Lines 1–3 Medicaid
- Lines 4–6 Medicare
- Lines 7–9 Other Public
- Lines 10–12 Private
- Line 13 Self-Pay

By Form of Payment (sub-lines a & b)

- Non-managed care
- Capitated managed care (a)
- Fee-for-service managed care (b)

Column A: Full Charges

Table 9D

Line	Payer Category	Full Charges This Period (a)	Amount Collected This Period (b)	Collection of Reconciliation/ Wraparound Current Year (c1)	Collection of Reconciliation/ Wraparound Previous Years (c2)	Collection of Other Payments: P4P, Risk Pools, etc. (c3)	Penalty/ Payback (c4)	Adjustments (d)	Sliding Fee Discounts (e)	Bad Debt Write-Off (f)
------	----------------	------------------------------	----------------------------------	--	--	--	-----------------------	-----------------	---------------------------	------------------------

- **Column A: Full Charges:** Total billable charges across all services, reported by payer source:
 - Undiscounted, unadjusted, gross charges for services owed by payer
 - Based on health center fee schedule
 - Charges for services provided during the calendar year, including pharmacy charges
- Do not include:
 - “Charges” where no collection is attempted or expected (e.g., enabling services, donated pharmaceuticals, free vaccines)
 - Capitation or negotiated rate as charges
 - Charges for Medicare G-codes
 - ✓ To learn more about [CMS payment codes](#), visit the CMS website.

Column B: Collections

Table 9D

Line	Payer Category	Full Charges This Period (a)	Amount Collected This Period (b)	Collection of Reconciliation/ Wraparound Current Year (c1)	Collection of Reconciliation/ Wraparound Previous Years (c2)	Collection of Other Payments: P4P, Risk Pools, etc. (c3)	Penalty/ Payback (c4)	Adjustments (d)	Sliding Fee Discounts (e)	Bad Debt Write-Off (f)
------	----------------	------------------------------	----------------------------------	--	--	--	-----------------------	-----------------	---------------------------	------------------------

- **Column B: Collections:** Include **all payments** received in 2022 for services to patients:
 - Capitation payments
 - Contracted payments
 - Payments from patients
 - Third-party insurance
 - Retroactive settlements, receipts, and payments
 - ✓ Include pay-for-performance, quality bonuses, and other incentive payments tied to patient care.
- Do not include Promoting Interoperability payments from Medicaid and Medicare here.
- Do not include *pay-for-participation* or *pay-for-reporting* incentives here (report on Table 9E). *Pay-for-performance* incentives (tied to patient services) ARE reported here.

Columns C1–C4: Retroactive Settlements, Receipts, and Paybacks

Table 9D

Amount Collected This Period (b)	Retroactive Settlements, Receipts, and Paybacks (c)			
	Collection of Reconciliation/ Wraparound <i>Current</i> Year (c1)	Collection of Reconciliation/ Wraparound <i>Previous</i> Years (c2)	Collection of Other Payments: P4P, Risk Pools, etc. (c3)	Penalty/Payback (c4)
Payments reported in C1–C4 are part of Column B total, but do not equal Column B	<ul style="list-style-type: none"> FQHC prospective payment system (PPS) reconciliations (<i>based on filing of cost report</i>) Wraparound payments (<i>additional amount per visit to bring payment up to FQHC level</i>) 	<ul style="list-style-type: none"> FQHC prospective payment system (PPS) reconciliations (<i>based on filing of cost report</i>) Wraparound payments (<i>additional amount per visit to bring payment up to FQHC level</i>) 	<ul style="list-style-type: none"> Managed care pool distributions Pay for performance (P4P) Other incentive payments Quality bonuses Value-based payments 	Paybacks or deductions by payers because of overpayments or penalty (<i>report as a positive number</i>)

Column D: Adjustments

Table 9D

Line	Payer Category	Full Charges This Period (a)	Amount Collected This Period (b)	Collection of Reconciliation/ Wraparound Current Year (c1)	Collection of Reconciliation/ Wraparound Previous Years (c2)	Collection of Other Payments: P4P, Risk Pools, etc. (c3)	Penalty/ Payback (c4)	Adjustments (d)	Sliding Fee Discounts (e)	Bad Debt Write-Off (f)
------	----------------	------------------------------	----------------------------------	--	--	--	-----------------------	-----------------	---------------------------	------------------------

- **Column D: Adjustments:** Agreed-upon reductions/write-offs in payment by a third-party payer:
 - Reduce by amount of retroactive payments in C1, C2, and C3.
 - + Add paybacks reported in C4.
- May result in a negative number (most common with large retro payments in C1–C3).
- For *managed care capitated lines* (2a, 5a, 8a, and 11a) *only*, adjustments equal the difference between charges and collections (Column D = A–B).

Column E: Sliding Fee Discounts

Table 9D

Line	Payer Category	Full Charges This Period (a)	Amount Collected This Period (b)	Collection of Reconciliation/ Wraparound Current Year (c1)	Collection of Reconciliation/ Wraparound Previous Years (c2)	Collection of Other Payments: P4P, Risk Pools, etc. (c3)	Penalty/ Payback (c4)	Adjustments (d)	Sliding Fee Discounts (e)	Bad Debt Write-Off (f)
------	----------------	------------------------------	----------------------------------	--	--	--	-----------------------	-----------------	---------------------------	------------------------

ONLY applicable to charges reported in Column A of Line 13, Self-Pay

- **Column E: Sliding Fee Discounts:** Reductions in patient charges based on their ability to pay.
 - Based on the patient’s documented income and family size (per federal poverty guidelines), including uninsured patients who are below 2X the federal poverty level.
- May be applied:
 - To insured patients’ co-payments, deductibles, and non-covered services.
 - Only when charge has been reclassified from original charge line to Self-Pay.
- May not be applied to past-due amounts.

Column F: Bad Debt Write-Off

Table 9D

Line	Payer Category	Full Charges This Period (a)	Amount Collected This Period (b)	Collection of Reconciliation/ Wraparound Current Year (c1)	Collection of Reconciliation/ Wraparound Previous Years (c2)	Collection of Other Payments: P4P, Risk Pools, etc. (c3)	Penalty/ Payback (c4)	Adjustments (d)	Sliding Fee Discounts (e)	Bad Debt Write-Off (f)
------	----------------	------------------------------	----------------------------------	--	--	--	-----------------------	-----------------	---------------------------	------------------------

- **Bad debt:** Amounts owed by patients considered to be uncollectable and formally written off during 2022, regardless of when service was provided.
- Only report **patient bad debt** (not third-party payer bad debt):
 - *ONLY related to charges reported in **Column A of Line 13, Self-Pay.***
 - Third-party payer bad debt is not reported in the UDS.
- Do not change bad debt to a sliding discount.
- Discounts (e.g., to specific groups of patients, cash discounts) or forgiveness is not patient bad debt (or a sliding discount).

Payer Categories for Patient Service Revenue

Table 9D

<u>Medicaid</u>	<u>Medicare</u>	<u>Other Public</u>	<u>Private</u>	<u>Self-Pay</u>
<ul style="list-style-type: none">• Any state Medicaid program, including EPSDT, ADHC, PACE, if administered by Medicaid• Medicaid MCOs or Medicaid programs administered by third-party or private payers• CHIP, when administered by Medicaid	<ul style="list-style-type: none">• Medicare managed care programs, including Medicare Advantage run by commercial insurers• ADHC or PACE, if administered by Medicare	<ul style="list-style-type: none">• CHIP, when NOT administered by Medicaid• Public programs that pay for limited services, such as BCCCP and Title X• State- or county-run insurance plans that are not Medicaid• Service contracts with municipal/county jails, state prisons, public schools, or other public entities• Care under HRSA COVID-19 Uninsured Program	<ul style="list-style-type: none">• Commercial insurance purchased by patients and/or their employers• Tricare, Trigon, Federal Employees Insurance Program, workers' compensation• Insurance purchased through state exchanges or provided by employers	<ul style="list-style-type: none">• Portion that the patient is responsible for or that is <i>not</i> covered by a third-party payer—includes co-pay, deductibles, or full charge• Indigent care charge portion

Remember, reimbursement or payment may or may not be the same as the patient's primary medical insurance.

Relationship Between Insurance on Table 4 and Revenue on Table 9D

- Revenue sources on Table 9D are generally aligned with patient insurance reported on Table 4.
- If there is a reason the relationship would look unusual, include an explanation in your UDS submission on Table 9D.

Primary Third-Party Medical Insurance on Table 4, Line:	Have Revenue Reported on Table 9D, Line:
7: Uninsured—No medical insurance at last visit (includes patients whose service is reimbursed through grant, contract, or indigent care funds)	13: Self-Pay—Include co-pays and deductibles, state and local indigent care programs (do not include revenues from programs with limited benefits; See Other Public, Lines 7–9)
8a and 8b: Medicaid and Medicaid CHIP (includes Medicaid managed care programs and all forms of state-expanded Medicaid)	1–3: Medicaid (includes Medicaid expansion)
9: Medicare (includes Medicare Advantage)	4–6: Medicare
9a: Dually eligible (Medicare and Medicaid)	4–6: Medicare, initially, with balance reallocated to Medicaid
10a: Other Public non-CHIP—State and local government insurance that covers primary care	7–9: Other Public—Include patient service revenue from programs with limited benefits, such as family planning (Title X), EPSDT, BCCCP, etc.
10b: Other Public CHIP (private carrier outside Medicaid)	7–9: Other Public
11: Private—Private (commercial) insurance, including insurance purchased from state or federal exchanges (do not include workers’ compensation coverage as health insurance—it is a liability insurance)	10–12: Private—Charges and collections from contracts with private carriers, private schools, private jails, Head Start, workers’ compensation, and state and federal exchanges
13a: Capitated managed care enrollees	“a” lines
13b: Fee-for-service managed care enrollees	“b” lines

COVID-19 Uninsured Program Reporting

Table 9D

Federal Funding	Other Names	Reported on UDS
Reimbursement for COVID-related costs of uninsured patients from HRSA	HRSA Uninsured Claims Program (administered by United Health/ Optum Pay)	Table 9D, Line 8c: Other Public Including COVID-19 Uninsured Program Report full charges in Column A, collections in Column B, etc., as with all other lines.

- Only HRSA’s COVID-19 Claims Reimbursement to health care providers and facilities for testing and treatment of the uninsured patients is reported. *The [HRSA COVID-19 Uninsured program](#) stopped accepting claims in early April 2022.*
- *Do not report write-offs or costs to treat or test uninsured patients that are not reimbursed through HRSA’s COVID-19 Claims Reimbursement program on this line.*

There Are Three Possible Forms of Payment

For Patient Service Revenue on Table 9D

Non-Managed Care

Procedures and services are **separately charged** and paid for by a third-party payer, generally based on FFS. The third-party payers pay some or all of the bill based on agreed-upon maximums or discounts.

Charges and payments for services to patients who are *not assigned to the health center* through a managed care plan are always reported as *non-managed care*.

Managed Care Capitation

The revenue from health center contracts with a managed care organization for a specified set of services, for which the **managed care plan pays the health center a set amount for each patient assigned to the health center**. This is called a capitation fee and is typically paid per member per month.

Managed Care FFS

The revenue from health center contracts with a managed care organization where a set of patients is **assigned** to the health center and for whom the health center is responsible for their care where the health center is **reimbursed on an FFS (or encounter-rate) basis for covered services to those assigned patients**.

Remember that charges, in Column A, are reported based on the health center's fee schedule regardless of payment type.

Examples: Reclassifying a Portion of a Charge

Table 9D

Remember, when responsibility for charges **changes** or is **split**, the charges in Column A **need to be reclassified** to reflect that.

A patient is seen, saying their insurance has not changed, but the claim is denied by the payer because the patient was no longer enrolled with them. The charges then need to be reclassified to their current payer or to Self-Pay.

A patient with Medicare is seen and they have a supplemental plan that pays the 20% co-pay. That 20% of the charge needs to be reclassified to the secondary payer.

A claim is submitted to a private insurer for services to a patient. The patient has not yet met their deductible, so the insurer only pays a small portion of claim, then the remainder is billed to the patient. This deductible portion is reclassified to Self-Pay.

Reporting: Reclassifying a Portion of a Charge

Table 9D

Line	Payer Category	Full Charges This Period (a)	Amount Collected This Period (b)
10	Private Non-Managed Care	Initial Charge	
11a	Private Managed Care (capitated)		
11b	Private Managed Care (fee-for-service)		
12	Total Private (Sum of Lines 10 + 11a + 11b)		
13	Self-Pay	Reclassified Portion of Charge	
14	TOTAL (Sum of Lines 3 + 6 + 9 + 12 + 13)		

- After reclassifying to a secondary payer, that portion of the charge:
 - May be collected
 - May have a portion be adjusted
 - May be outstanding at the end of the year
- After reclassifying to Self-Pay (Line 13), that portion of the charge:
 - May be paid *or*
 - May be written off as sliding fee if the patient has qualified *or*
 - May be written off as bad debt.
- **Must reclassify the charge first!**

Example

How is this reported across Tables 4 and 9D?

- Naomi came into the health center seeking contraception in 2022. In completing intake paperwork, Naomi notes that she does not have insurance.
- Naomi is then seen twice at the health center in 2022 for family planning services including contraception, STI testing, and follow-up.
- Her family planning services were covered by the Title X program.

Example, cont.

This is how Naomi's visit is reported on Tables 4 and 9D.

- **Recap:** Naomi is a health center patient who doesn't have her own medical insurance and was seen twice in the year for family planning services, which are covered by Title X.
- **Answer:**
 - Naomi is **Uninsured on Table 4.**
 - On Table 9D, the charges for the family planning services received and collections received from Title X are reported as Other Public Non-Managed Care, on Line 7.
 - Any charges that were Naomi's responsibility are reported on Line 13: Self Pay.

Reporting 340B Contract Pharmacy

Table	Related Reporting/Impact
<p style="text-align: center;">8A (Costs)</p>	<ul style="list-style-type: none"> • Report the amount the pharmacy charges for managing dispensing of drugs on Line 8a, Pharmacy. • Report the full amount paid for drugs, either directly (by clinic) or indirectly (by contract pharmacy) on Line 8b, Pharmaceuticals. • If the pharmacy buys prepackaged drugs and there is no reasonable way to separate the pharmaceutical costs from the dispensing/administrative costs, report all costs on Line 8b. Associated non-clinical support services (overhead) costs go on Line 8a, Column B, even though Line 8a, Column A is blank. • Report payments to pharmacy benefit managers on Line 8a, Pharmacy. • Some pharmacies split the fee or keep a share of profit. Report this as a payment to the pharmacy on Line 8a, Pharmacy.
<p style="text-align: center;">9D (Patient Service Revenue)</p>	<ul style="list-style-type: none"> • Charge (Column A) is the health center/contract pharmacy's full retail charge for the drugs dispensed, <u>by payer</u>. If retail is unknown, ask the pharmacy for retail prices for the drugs dispensed. • Collection (Column B) is the amount received from patients or insurance companies. Health centers must collect this information from the contract pharmacy in order to report accurately. • Adjustments (Column D) is the amount disallowed by a third party for the charge (if on Lines 1–12). • Sliding Fee Discount (Column E) is the amount written off for eligible patients per health center policies (Line 13). Calculate as retail charge/pharmacy charge, minus amount collected from patients (by pharmacy or health center), minus amount owed by patients.
<p style="text-align: center;">9E (Other Revenue)</p>	<p>Do not report pharmacy revenue on Table 9E, and do not use Table 9E to report net revenue from the pharmacy. Report actual gross revenue on Table 9D.</p>

Key Takeaway: The breakdowns outlined here are needed to report correctly.

Table 9E: Other Revenue

2022 Changes:

- Updated one line label, now reads *Capital Development Grants, including School-Based Service Site Capital Grants*.

Other Revenue

Table 9E

This table is reported on a **cash basis**— amount drawn down (not award) in the year.

Report based on the entity dollars were received from (called the last party rule).

- Report **non-patient-service receipts** or funds drawn down in 2022.
 - Include income that supported activities described in your health center scope of services.
 - Report funds by the entity from which you received them.
 - Complete “specify” fields.

- The total amount reported on Tables 9E and 9D represents total revenue supporting the health center’s scope of services.

- Guidance for common health center funding awards related to the COVID-19 pandemic can be found [here](#).

Revenue Categories

Table 9E, Lines 1a–3b

Lines
1a–
1q

- **BPHC Grants:** Funds your health center received directly from BPHC, including funds passed through to another agency.
 - Include 330 grant(s) drawn down in the year.
 - Include the amounts directly received under the various COVID funding streams. *Only report amounts received in 2022.*

Lines
2–3b

- **Other Federal Grants:** Grants you received directly from the federal government other than BPHC. Other federal grants (e.g., HUD, CDC, SAMHSA).
 - Ryan White Part C.
 - EHR Incentive Payments: Include Promoting Interoperability funds, including funds paid directly to providers and turned over to the health center (exception to last party rule).
 - Provider Relief Fund.

Line	Source	Amount (a)
	BPHC Grants (Enter Amount Drawn Down—Consistent with PMS 272)	
1a	Migrant Health Center	
1b	Community Health Center	
1c	Health Care for the Homeless	
1e	Public Housing Primary Care	
1g	Total Health Center (Sum of Lines 1a through 1e)	
1k	Capital Development Grants , including School-Based Service Site Capital Grants

Health Center Health Information Technology (HIT) Capabilities

Appendix D

A series of approximately 15 questions that assess:

- **EHR adoption and use in your health center**
 - How widely is the EHR used in the organization?
 - What EHR? Is it CEHRT? Did you switch?
 - Do you use more than one system?
- **Data Exchange**
 - What other healthcare entities do you exchange information with?
 - What else do you use HIT/EHR for?
- **Social risk screening**
 - Standardized tools
 - **New this year:** Total number of patients screened
 - Patients identified with social risks
 - If no, why not?
- **Integration of Prescription Drug Monitoring Program (PDMP)**

Updates to Health IT Form

Appendix D

- Clarifying questions throughout
- New question on social risk factors

Question	Description of Revisions
New: Question 11a	<p>Question 11a, <i>How many health center patients were screened for social risk factors using a standardized screener during the calendar year?</i>, has been added to capture the total number of patients screened for social risk factors.</p> <ul style="list-style-type: none"> • Only respond to this if the response to Question 11 is “a. Yes.” • This is the “denominator” for the percent of patients who screened positive for any particular social risk.
Questions throughout	<p>Questions throughout have been revised to provide clarity and additional selection options.</p> <ul style="list-style-type: none"> • 12a. Of the total patients screened for social risk factors (Question 11a), please provide the total number of patients that screened positive for any of the given options at any point during the calendar year. • 12b. Only respond to this question if your response to Question 11a is “zero” or if Question 12, option j is selected.
Questions 1d, 1e, 7	<p>Questions 1d (is EHR up to date with latest patches), 1e (when will patches be installed), and 7 (how is UDS clinical data for Tables 6B and 7 reported) have been removed.</p>

Positive Screens for Selected Social Risks

Appendix D

- In addition to asking whether a health center is using a standardized social risk screener, the HIT form also collects the **number of health center patients who screened positive** in four areas:

- Food insecurity
- Housing insecurity
- Financial strain
- Lack of transportation/access to public transportation

- This [crosswalk](#) identifies the questions on each standardized screener and what constitutes a positive screen in each of the selected areas.
- Do not use proxies (such as patients with low income) to report social risks.**

HRSA Health Center Program		UNIFORM DATA SYSTEM			
Standardized screeners for social risk factors	Food Insecurity	Housing Insecurity	Financial Strain	Lack of transportation/ access to public transportation	
Accountable Health Communities Screening Tools	<p><i>Question 3:</i> Within the past 12 months, you worried that your food would run out before you got money to buy more. <i>Count if= Often true OR Sometimes true</i></p> <p><i>Question 4:</i> Within the past 12 months, the food you bought just didn't last and you didn't have money to get more. <i>Count if= Often true OR Sometimes true</i></p>	<p><i>Question 1:</i> What is your living situation today? <i>Count if= I have a place to live today, but I am worried about losing it in the future OR I do not have a steady place to live (I am temporarily staying with others, in a hotel, in a shelter, living outside on the street, on a beach, in a car, abandoned building, bus or train station, or in a park)</i></p>	<p><i>Question 11:</i> How hard is it for you to pay for the very basics like food, housing, medical care, and heating? <i>Count if= Very hard OR Somewhat hard</i></p>	<p><i>Question 5:</i> In the past 12 months, has lack of reliable transportation kept you from medical appointments, meetings, work or from getting things needed for daily living? <i>Count if= yes</i></p>	
Upstream Risks Screening Tool & Guide	<p><i>Question 9:</i> Which of the following describes the amount of food your household? (Check one.) <i>Count if= often not enough to eat</i></p>	<p><i>Question 8a:</i> In the last month, have you slept outside, in a shelter, or in a place not meant for sleeping? <i>Count if= yes</i></p> <p><i>Question 8c:</i> In the last 12 months, how many times have you or your</p>	<p><i>Question 7a:</i> Do you ever have problems making ends meet at the end of the month? <i>Count if= yes</i></p> <p><i>Question 7b:</i> How hard is it for you to pay for the very basics like food, housing, medical care, and heating?</p>	<p><i>Question 11:</i> How often is it difficult to get transportation to or from your medical or follow-up appointment? <i>Count if= Often OR Always</i></p>	

Other Data Elements

Appendix E

Telemedicine

- “Telemedicine” used on this form is specific to remote clinical services, whereas “telehealth” may include remote non-clinical services, such as provider training, administrative meetings, and continuing medical education, in addition to clinical services.

Medication-Assisted Treatment (MAT)

- Report number of *providers* who have obtained a Drug Addiction Treatment Act of 2000 (DATA) waiver to provide MAT.
- Report number of *patients* who received MAT from a provider with a DATA waiver working on behalf of the health center.
 - Count only MAT (buprenorphine) provided by providers with a DATA waiver.
 - Check information with reporting on Table 5.

Outreach and Enrollment Assistance

- Report number of assists.
- Outreach and enrollment assists are defined as customizable education sessions about affordable health insurance coverage options and any other assistance provided by a trained assister from the health center to facilitate enrollment.
 - Assists reported here do not count as visits on the UDS tables, only on this form.

Telemedicine Reporting

Appendix E

Do you use telemedicine?

- Meaning, do you provide clinical services via remote technology?

Who do you use telehealth to communicate with?

- Patients?
- Specialists?

What telehealth technologies do you use?

- Real time, store-and-forward, remote patient monitoring, mobile health?

What services are provided via telemedicine?

- Primary care, oral health, mental health, SUD, dermatology, etc.?

If you do not offer telemedicine services, why not?

- Policy barriers, inadequate broadband, funding, training, etc.?

Keys to Remember

- Limit your responses to clinical services provided via telehealth.
- It is possible to respond **Yes** to telemedicine questions here without having virtual visits on Table 5, if you use remote patient monitoring or eConsults, for example.
- Reflect your health center's services during the year.

Workforce Form

Appendix F

Professional Education/Training

- Report health professional training/education provided by category.
- Report training whether it is pre-graduate/certificate or post-graduate.
- Report for preceptor and support staff.
- Note that this is NOT staff training like continuing education, CMEs, or first aid training, but training of the health professional workforce.

Satisfaction Surveys

- Provider satisfaction survey frequency.
 - Refer to Appendix A of the Manual regarding who is a provider.
- General personnel satisfaction survey frequency.
- Note that this is satisfaction of personnel, not patient satisfaction surveys.

Purpose: To provide insight and clarity into current state of health center workforce training and staffing.

Tips for Success and Resources

Tips for Success

Tables are interrelated and **specific to your health center**, so get together with a team to ensure accurate reporting across:

- Sites
- Personnel, FTEs, and roles
- Patients and services
- Expenses
- Revenues

Key Examples

- Those responsible for FTEs on Table 5 and costs on Table 8A need to get together to ensure that FTEs and costs are allocated consistently across the two tables.
- Those responsible for Table 4 and those responsible for Table 9D need to be sure there is agreement about how certain insurances and programs are being classified, in terms of payer category, payment type, and whether certain plans meet the UDS definition of managed care.

Tips for Success, cont.

- Adhere to **definitions and instructions**.
 - ✓ Review how certain personnel positions or insurances were categorized for reporting last year.
- **Check your data** before submitting.
 - ✓ Refer to the questions and comments you received from your reviewer last year. This document is emailed to the UDS Contact each year.
 - ✓ Compare with benchmarks/trends.
 - ✓ Review the Comparison Tool available in the EHBs.
 - ✓ Understand and communicate system or program changes that explain the data.
- Address **edits** in the EHBs by correcting or providing explanations that demonstrate your understanding.
- Work with your **UDS reviewer**.

Available Assistance

- Technical assistance materials, including local trainings, are available online:
 - [HRSA Health Center Program website](#)
- UDS Support Center for assistance with UDS reporting questions:
 - udshelp330@bphcdata.net
 - 866-UDS-HELP (866-837-4357)
- [Health Center Program support](#) for questions about the Health Center Program.
- EHBs support
 - UDS Report and Preliminary Reporting Environment access (in [EHBs](#))
 - EHBs system issues: 877-464-4772, Option 1
 - EHBs account access and roles: 877-464-4772, Option 3
- [National Training and Technical Assistance Partners](#)

Administering Program Conditions

Health centers must demonstrate program compliance with these requirements:

- The health center has a system in place to collect and organize data related to the HRSA-approved scope of project, as required to meet Health and Human Services (HHS) reporting requirements, including those data elements for UDS reporting; and
- The health center submits timely, accurate, and complete UDS reports in accordance with HRSA instructions and submits any other required HHS and Health Center Program reports.

Source: [Chapter 18: Program Monitoring and Data Reporting Systems of the Health Center Program Compliance Manual](#)

Conditions will be applied to health centers that fail to submit by February 15.

- **February 16–April 1:** BPHC will finalize and confirm the list of *“late,” “inaccurate,” or “incomplete”* UDS reporters.
- **Mid-April:** BPHC will notify the respective Health Services Offices (HSO) project officers of the health centers that are on the non-compliant list.
- **Late April/Early May:** BPHC will issue the related Progressive Action condition.

Thank You!

Thank you for joining this UDS Training!
