I. BACKGROUND
This Program Assistance Letter (PAL) provides information on the Health Resources and Services Administration’s (HRSA) changes to the calendar year (CY) 2012 Uniform Data System (UDS) to be reported by Health Center Program grantees in early 2013. These changes were approved by the Office of Management and Budget on February 28, 2012.

The changes include: (1) a new staff tenure table; (2) three new clinical measures; (3) reporting on all (versus primary) diagnoses for selected conditions; and (4) questions about electronic health record capabilities and national quality recognition.

II. 2012 CHANGES TO UNIFORM DATA SYSTEM (UDS)

1. Addition of New Table 5A, Tenure for Health Center Staff
A new Table 5A, Tenure for Health Center Staff, is added to better assess workforce needs and improve efforts for workforce development and retention.

Major features of Table 5A are:
- Distinguishes full and part time staff from locum tenens, on call, and other staff that provide limited or temporary staffing
- Counts number of persons and their total months of service (since the start of their most recent employment) as of the last work day of the year for each category of key staff listed
- Staff categories and line numbers are consistent with those in Table 5, Staffing and Utilization, but persons are counted as opposed to Full Time Equivalents
### UDS Table 5A – Tenure for Health Center Staff

<table>
<thead>
<tr>
<th>Key Staff</th>
<th>Full and Part Time</th>
<th>Locum, On-call, etc.</th>
</tr>

Instructions for these changes will be described in detail in the 2012 UDS Manual and in scheduled trainings on the 2012 UDS.
2. **Addition of Three New Clinical Measures**

The following three new clinical measures are approved for CY 2012 UDS data collection.

- **Coronary Artery Disease (CAD): Lipid Therapy**
  Drug Therapy for Lowering LDL Cholesterol: Percentage of patients 18 years and older with a diagnosis of CAD prescribed a lipid lowering therapy (based on current ACC/AHA guidelines).

- **Ischemic Vascular Disease (IVD): Aspirin Therapy**
  Percentage of patients 18 years of age and older who were discharged alive for acute myocardial infarction (AMI), coronary artery bypass graft (CABG) or percutaneous transluminal coronary angioplasty (PTCA), or who had a diagnosis of Ischemic Vascular Disease (IVD) and who had documentation of use of aspirin or another antithrombotic during the measurement year.

- **Colorectal Cancer Screening**
  Percentage of adults 50 to 75 years of age who had appropriate screening for colorectal cancer (includes colonoscopy ≤ 10 years, flexible sigmoidoscopy ≤ 5 years, or annual fecal occult blood test).

The three new measures are added to Table 6B below as Sections I, J, and K, respectively.

<table>
<thead>
<tr>
<th>LIPID THERAPY</th>
<th>TOTAL PATIENTS 18 AND OLDER WITH CAD DIAGNOSIS (a)</th>
<th>CHARTS SAMPLED OR EHR TOTAL (b)</th>
<th>NUMBER OF PATIENTS PRESCRIBED A LIPID LOWERING THERAPY (c)</th>
</tr>
</thead>
<tbody>
<tr>
<td>17</td>
<td>Patients aged 18 and older with a diagnosis of CAD prescribed a lipid lowering therapy</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
### Section J – Ischemic Vascular Disease: Aspirin or Antithrombotic Therapy

<table>
<thead>
<tr>
<th>Aspirin or Other Antithrombotic Therapy</th>
<th>Total Patients 18 and Older with IVD Diagnosis or AMI, CABG, or PTCA Procedure (a)</th>
<th>Charts Sampled or EHR Total (b)</th>
<th>Number of Patients with Aspirin or Other Antithrombotic Therapy (c)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Patients aged 18 and older with a diagnosis of IVD or AMI, CABG, or PTCA procedure with aspirin or another antithrombotic therapy</td>
<td>18</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### Section K – Colorectal Cancer Screening

<table>
<thead>
<tr>
<th>Colorectal Cancer Screening</th>
<th>Total Patients 51 to 75 Years Old (a)</th>
<th>Charts Sampled or EHR Total (b)</th>
<th>Number of Patients with Appropriate Screening for Colorectal Cancer (c)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Patients age 51 to 75 years with appropriate screening for colorectal cancer</td>
<td>19</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

3. **Change Reporting of Health Conditions on Table 6A from Primary to All Diagnoses**

In order to improve reporting of patient health conditions in the UDS, Table 6A is revised to collect information on patients with multiple diagnoses. The change is highlighted below. Specifically, for all lines in each of the diagnostic categories listed, column a is changed from number of visits by primary diagnosis to visits with noted diagnoses regardless of primacy and column b is changed from number of patients with primary diagnoses to total patients with diagnoses regardless of primacy.
### Proposed Changes to
### Table 6A – Selected Diagnoses and Services Rendered

<table>
<thead>
<tr>
<th>Diagnostic Category</th>
<th>Applicable ICD-9-CM Code</th>
<th>Visits with noted diagnosis Regardless of primacy (a)</th>
<th>Total patients with diagnosis Regardless of primacy (b)</th>
</tr>
</thead>
<tbody>
<tr>

4. **Questions about Grantee Electronic Health Record (EHR) Reporting Capabilities and Quality Recognition**

The full set of questions in Appendix D is below.

1. Does your health center currently have an Electronic Health Record (EHR) system installed and in use?  
   a. Yes, at all sites and for all providers  
   b. Yes, but only at some sites or for some providers  
   c. No  
      i. If (c) break out to ask if planned and when (3 months, 6 months, 1 year+, add not planned)  
      ii. Pop-up if (a) OR (b)

   1. **Please select your EHR product from the list of systems or modules below, and enter the version information in the box that follows. If other, please specify:**  
      a. Allscripts  
      b. athena  
      c. GE Centricity  
      d. eClinicalWorks (eCW)  
      e. e-MDs  
      f. Epic  
      g. Greenway  
      h. CompuGroup (HealthPort)  
      i. IMS  
      j. Logician  
      k. McKesson  
      l. Medinformatix  
      m. Medinotes
n. MicroMD  
o. NextGen  
p. Resource Patient Management System (RPMS)  
q. Sage  
r. Sevocity  
s. SuccessEHS  
t. Other

iii. Pop-up if (b)  
1. How many sites have the EHR in use?  
2. How many providers use the EHR system?

iv. Do you use your EHR to electronically extract and submit data for your UDS clinical reporting (Table 6B and 7)?  
1. Yes  
2. No

2. For each of the core Meaningful Use criteria for computerized capabilities below, please indicate whether your practice has and uses this capability, does not have the capability, or does have the capability but the function is turned off such that it is not used:

**Yes/Yes, but turned off or not used/No/Unknown**  
1. Patient history and demographic information?  
   If yes, does this include a patient problem list?  
   If yes, does it record and chart changes in vital signs?  
   If yes, does it record weight screening and follow-up?  
   If yes, does it include housing status?

2. Clinical notes?  
   If yes, do they include a list of the medications that the patient is taking?  
   If yes, does this include a comprehensive list of the patient’s allergies (including allergies to medications)?

3. Computerized provider order entry (CPOE)?  
   For lab tests?  
   For radiology tests?  
   If yes, are orders sent electronically?  
   If yes, are results incorporated into EHR?  
   If yes, are out of range levels highlighted?

4. Electronic entry of prescriptions?  
   If yes, are warnings of drug allergies, interactions or contraindications provided?  
   If yes, are prescriptions sent electronically to the pharmacy?
5. Reminders for guideline-based interventions or screening tests?
   If yes, does it record smoking status?
   If yes, does it prompt for and record the tobacco cessation intervention?

6. Capability to exchange key clinical information among providers of care and patient-
   authorized entities electronically?

7. Notifiable diseases sent electronically to state or local health departments?

8. Reporting to immunization registries done electronically?

9. Capability to provide patients with an electronic copy of their health information
   upon request?

10. Capacity to provide clinical summaries for patients for each office visit?

11. Does the system protect electronic health information?

3. Are providers at your health center Meaningful Users of HIT?
   a. Yes. Providers or the health center receive Meaningful Use incentive payments from
      CMS due to the use of the health center’s EHR system.
   b. Not yet, but providers at my health center meet the requirements and plan to apply
      to receive Meaningful Use incentive payments from CMS in the coming year.
   c. Providers at health center do not meet the requirements to receive Meaningful Use
      incentive payments from CMS, or do not plan to apply.

4. Has your health center received national and/or state quality recognition, either
   accreditation or patient centered medical home recognition, for one or more sites?
   i. Yes
   ii. No

   If yes, which third party organization(s) deemed recognition status? (Can identify more
   than one)
   1. AAAHC
   2. The Joint Commission
   3. NCQA
   4. State Based Initiative
   5. Private Payer Initiative
   6. Other Recognition Body (write in name)

The above changes to the UDS will be described in detail in scheduled trainings and in the 2012
UDS manual.
