

DEPARTMENT OF HEALTH AND HUMAN SERVICES Health Resources and Services Administration Funding Request Form	FOR HRSA USE ONLY	
	Grant Number	Application Tracking Number

Funding Request Form Instructions

You will use this form to indicate if you want to receive supplemental ARP-UDS+ funding.

- Mark “YES” or “NO” (only one “YES” is permitted) to indicate if:
 - You will use this funding to support UDS+ activities only.
 - You will use this funding to support ARP activities only.
 - You will use this funding to support **both** UDS+ and ARP activities.
 - If you do not wish to receive ARP-UDS+ supplemental funding, mark “NO” for all three funding request questions.
- If **NO** is selected for all questions below, you will not complete additional forms or attachments and you **will not** receive supplemental ARP-UDS+ funding.

A complete list of all UDS+ and ARP activities can be found in Appendix A of the FY 2022 ARP-UDS+ notice of funding opportunity.

Funding Request

	Select One Option
Do you request ARP-UDS+ supplemental funding to support only UDS+ reporting? Note: If YES is selected, you will complete the UDS+ Activities list.	Yes <input type="checkbox"/> No <input type="checkbox"/>
Do you request ARP-UDS+ supplemental funding to conduct only additional ARP activities? Note: If YES is selected, you will complete the ARP Activities list.	Yes <input type="checkbox"/> No <input type="checkbox"/>
Do you request ARP-UDS+ supplemental funding to support both UDS+ reporting and additional ARP activities? Note: If YES is selected, you will complete both the UDS+ Activities list and the ARP Activities list.	Yes <input type="checkbox"/> No <input type="checkbox"/>

DEPARTMENT OF HEALTH AND HUMAN SERVICES Health Resources and Services Administration Uniform Data System Patient-Level Submission (UDS+) Activities List	FOR HRSA USE ONLY	
	Grant Number	Application Tracking Number

UDS+ Activities List Instructions

Use this form to indicate how you will use supplemental ARP-UDS+ funding to prepare for UDS+ patient-level reporting.

- If you are proposing to use ARP-UDS+ funding to support a UDS+ activity that will be completed in the remainder of your FY 2023 ARP budget period, mark “YES” next to that activity.
- You may write in self-defined UDS+ activities under “Other” for each category. You may add as many “Other” rows as necessary to describe any additional proposed activities. Please be as specific as possible to support with review and approval of your application.

Improve Health Information Technology (Health IT) Activities List

Reporting: Improve data quality, aggregation, and analytic capacity to better facilitate UDS+ reporting.	Yes <input type="checkbox"/> No <input type="checkbox"/>
Data Integration: Develop data warehousing capabilities to integrate clinical, financial, and/or operational data.	Yes <input type="checkbox"/>
Workflow Design: Develop or modify operational workflows to systematically collect data on social risk factors and other barriers that influence patients’ health outcomes and receipt of health care.	Yes <input type="checkbox"/>
Data Collection: Enhance data collection on structural, process, and outcome measures most meaningful to patients.	Yes <input type="checkbox"/>
FHIR: Develop or modify clinical and operational workflows to implement new health IT, Fast Healthcare Interoperability Resources (FHIR), and UDS+ reporting.	Yes <input type="checkbox"/>
Interoperability Standards: Enhance EHR interoperability and health information exchange with FHIR in order to support enhanced data collection, improve UDS+ reporting, and align with national interoperability standards.	Yes <input type="checkbox"/>
Data Storage: Improve data storage and accessibility through new or expanded server capacity.	Yes <input type="checkbox"/>
Internet Efficiency: Update Internet systems to enhance efficiency (e.g., fiber optics lines, increased Internet bandwidth, new routers).	Yes <input type="checkbox"/>
External Data Sites: Increase connectivity to external data recovery sites that host health centers’ health IT systems.	Yes <input type="checkbox"/>
Software: Purchase or upgrade Office of the National Coordinator for Health Information Technology (ONC)-certified technology, including electronic health records (EHRs).	Yes <input type="checkbox"/>

Hardware: Purchase laptop computers, portable devices (e.g., tablets), kiosks, and modular workstation adaptations to improve patient services and engagement, and increase the efficiency and/or quality of patient data retention to improve clinical outcomes.	Yes <input type="checkbox"/>
Other: Provide details	Yes <input type="checkbox"/>
Recruiting and/or Training Staff	
Data Training: Provide staff and/or provider training to support enhanced clinical data entry and extraction.	Yes <input type="checkbox"/>
Software Training: Train providers and staff to implement and optimize use of FHIR, and UDS+ enhancements and equipment.	Yes <input type="checkbox"/>
Workflow Design: Develop or modify clinical and operational workflows to enable improved collection and utilization of clinical quality data.	Yes <input type="checkbox"/>
Staffing: Increase FTE for internal individuals or hire and/or contract external individuals experienced in patient-level data collection and analysis to produce test files for UDS+ reporting.	Yes <input type="checkbox"/>
Other: Provide details	Yes <input type="checkbox"/>

DEPARTMENT OF HEALTH AND HUMAN SERVICES Health Resources and Services Administration American Rescue Plan (ARP) Activities List	FOR HRSA USE ONLY	
	Grant Number	Application Tracking Number

ARP Activities List Instructions

Use this form to indicate how you will use supplemental ARP-UDS+ funding to carry out additional ARP activities that respond to and mitigate the spread of COVID-19 and enhance health care services and infrastructure.

- If you are proposing to use ARP-UDS+ funding to support an ARP activity that will be completed in the remainder of your FY 2023 ARP budget period, mark “YES” next to that activity.
- You may write in self-defined activities under “Other” for each category. You may add as many “Other” rows as necessary to describe any additional proposed activities. Please be as specific as possible to support review and approval of your application.

COVID-19 Vaccination Capacity Activities

Vaccine Administration: Administer vaccinations at permanent and temporary health center service sites or other locations, including through mobile, drive-up, walk-up, or community-based vaccination events. Such vaccine administration activities should address the unique and evolving access barriers experienced by underserved and vulnerable populations and be carried out in alignment with CDC, state/jurisdiction, and other public health guidance.	Yes <input type="checkbox"/> No <input type="checkbox"/>
Outreach: Perform vaccine-related outreach and education, including promoting health center vaccination efforts and supporting COVID-19 vaccine acceptance. Such activities should include a focus on providing services to racial and ethnic minorities, homeless individuals and families, agricultural workers, residents of public housing, individuals with limited English proficiency, and other underserved and vulnerable populations at greatest risk for COVID-19 exposure or severe disease.	Yes <input type="checkbox"/>
Enabling Services: Expand or increase health center enabling services (e.g., transportation, translation, interpretation) that facilitate access to COVID-19 vaccination.	Yes <input type="checkbox"/>
Vaccine Administration Workflows and Clinical Support: Modify, enhance, and expand systems and workflows to efficiently and effectively administer COVID-19 vaccine, including aligning workflows with current and evolving public health guidance, enhancing and maximizing use of patient registries, enhancing clinical decision support and use of data from electronic health records (EHR), and coordination and collaboration with jurisdictions and other community partners.	Yes <input type="checkbox"/>
Vaccine Management and Distribution: Support vaccine ordering, distribution to administration sites, and inventory management, including activities necessary for participation in the CDC COVID-19 Vaccination Program and/or the Health Center COVID-19 Vaccine Program.	Yes <input type="checkbox"/>

Personnel: Hire and/or contract additional health center providers, clinical staff, and other personnel (e.g., pharmacy personnel, community health workers, patient/community education specialists, billing staff, case managers, information technology staff) as needed to support COVID-19 vaccination.	Yes <input type="checkbox"/>
Training: Train health center workforce on vaccine handling, storage, and administration; assessment and prioritization of patients; and social and other barriers to accessing care.	Yes <input type="checkbox"/>
Data Systems and Reporting: Establish and enhance health center data systems that ensure that vaccine administration data are available, secure, complete, timely, valid, and reliable and support related data reporting activities.	Yes <input type="checkbox"/>
Health Information Interoperability: Purchase or enhance health information technology software and hardware that support interoperability of health center data systems with federal, state, and local vaccine administration and distribution data systems.	Yes <input type="checkbox"/>
Adverse Events Monitoring: Establish and enhance workflows and personnel skills to diagnose, treat, and report potential COVID-19 vaccination adverse events.	Yes <input type="checkbox"/>
Hours and Availability: Support increased access to COVID-19 vaccination through extended health center operating hours; enhanced telephone triage capacity; mobile, virtual, and home services; and establishment of temporary service sites and locations.	Yes <input type="checkbox"/>
Develop and Deploy Digital Tools: Develop and/or enhance health center websites, patient portals, digital applications, and other tools to support scheduling, show rates, and follow up for COVID-19 vaccination.	Yes <input type="checkbox"/>
Other: Provide details	Yes <input type="checkbox"/>
COVID-19 Response and Treatment Capacity	
Test and Treat: Increase capacity for “test and treat” comprehensive strategies to enable close linkage of early diagnosis and outpatient treatment.	Yes <input type="checkbox"/>
Testing: Support self, mobile, drive-up and/or walk-up testing that addresses the unique and evolving access barriers experienced by underserved and vulnerable populations in the community.	Yes <input type="checkbox"/>
Hours and Availability: Support increased access to COVID-related services (e.g., screening, testing, and treatment) through extended health center operating hours; enhanced telephone triage capacity; mobile, virtual, and home services; and temporary service sites and locations.	Yes <input type="checkbox"/>
Develop and Deploy Digital Tools: Develop and/or enhance websites, patient portals, digital applications, and other tools to support scheduling, show rates, and follow up for COVID-related services including screening, vaccination, testing, and contact tracing.	Yes <input type="checkbox"/>
Personnel: Hire and contract additional clinical staff and other personnel (e.g., community health workers, behavioral health specialists, billing staff, case managers) who will support health center outreach, testing, delivery of test results, COVID-19 treatment, and related behavioral health services.	Yes <input type="checkbox"/>
Laboratory: Support health center COVID-19 testing and laboratory costs, including purchasing COVID-19 tests; distribution of home tests to established health center patients; specimen handling and collection; and storage and processing equipment.	Yes <input type="checkbox"/>
Treatment: Provide health center-based treatment for patients with COVID-19, as appropriate (including monoclonal antibody therapy).	Yes <input type="checkbox"/>

Care Coordination: Support care coordination with other health care providers for patients that require hospitalization or other advanced care and treatment not available through the health center.	Yes <input type="checkbox"/>
Workflows: Enhance workflows using CDC guidance to facilitate access to testing and necessary follow up services, including risk modification education, plans for repeat testing, and treatment.	Yes <input type="checkbox"/>
Interoperability: Enhance health information exchange capacity to support communications with public health partners, emergency response teams, centralized assessment locations, reporting entities and registries, and/or other health care providers.	Yes <input type="checkbox"/>
Reporting: Report information on COVID-19 infection to federal, state, and local public health agencies consistent with applicable law (including laws relating to communicable disease reporting and privacy).	Yes <input type="checkbox"/>
Supplies and Equipment: Purchase equipment and supplies to diagnose and treat COVID-19 (e.g., COVID-19 tests, radiological equipment, health information technologies, PPE, hygiene and other disposable supplies), along with temporary signage to promote testing and treatment locations.	Yes <input type="checkbox"/>
Outreach: Conduct outreach and education to patients who may be at risk of COVID-19 exposure or severe illness, have need for extra precautions, or who have barriers to accessing testing or treatment, including enrollment in affordable health insurance coverage options.	Yes <input type="checkbox"/>
Enabling Services: Expand or increase health center enabling services (e.g., transportation, translation, interpretation) that facilitate access to COVID-19 education, testing, and treatment.	Yes <input type="checkbox"/>
Contact Tracing: In coordination with federal, state, and local public health activities, notify identified contacts of infected health center patients of their exposure to COVID-19, consistent with applicable law (including laws relating to communicable disease reporting and privacy).	Yes <input type="checkbox"/>
Other: Provide details	Yes <input type="checkbox"/>
Maintaining and Increasing Capacity	
Personnel: Ensure the availability of comprehensive primary and behavioral health care, through in-person and virtual visits, to meet the needs of underserved and vulnerable populations in the community by supporting salaries and benefits for health center personnel providing in-scope services.	Yes <input type="checkbox"/>
Immunization (other than COVID-19 vaccination): Establish and/or expand adult and childhood immunization/vaccination programs, including aligning workflows with current public health guidance, maximizing use of patient registries, enhancing clinical decision supports and use of data from electronic health records (EHR), leveraging community partners, increasing staff, purchasing vaccines and supplies, storage, and outreach.	Yes <input type="checkbox"/>
Facilitating Access: Expand or increase enabling services (e.g., transportation, translation, outreach, eligibility assistance) and other strategies, such as home and/or virtual visits, that facilitate access to care and address social and other risk factors, including those amplified or worsened by the public health emergency.	Yes <input type="checkbox"/>
Broadband: Increase the health center's broadband capacity to support virtual care models and assist patients in connecting to virtual care by referring them to government	Yes <input type="checkbox"/>

subsidy programs such as the Emergency Broadband Benefit program and the Lifeline program.	
Telehealth: Expand and enhance health center telehealth capacity to perform triage, deliver care, support care transitions, and support follow-up via telehealth, including the use of home monitoring devices and video to provide care to patients in their homes, community settings, and other locations. Support access to virtual care for patients with unstable or no housing or other barriers to accessing care.	Yes <input type="checkbox"/>
Training and Education: Train personnel on digital platforms, devices, and workflows supporting the use of telehealth, and provide patient education that will increase digital literacy and competence using digital devices and applications that promote health.	Yes <input type="checkbox"/>
Develop and Deploy Digital Tools: Develop and/or enhance software and digital applications to support patients' access to and engagement in virtual care, including patient self-management tools, remote patient monitoring, patient portals, digital applications, websites, and use of social media.	Yes <input type="checkbox"/>
Cybersecurity: Enhance telehealth and health information technology cybersecurity infrastructure, including mobile device management, patient portals, and digital applications; develop and implement plans for data risk management, mitigation, and recovery; and update software and operating systems.	Yes <input type="checkbox"/>
Equipment and Supplies: Purchase equipment and supplies to support the provision of comprehensive primary care (e.g., clinical and diagnostic equipment; telehealth equipment; information technology systems to enhance data collection, exchange, reporting, and billing; equipment and supplies for use by remotely located staff to ensure continuity of health center services).	Yes <input type="checkbox"/>
Electronic Health Record (EHR): Purchase or upgrade an EHR that is certified by the Office of the National Coordinator for Health Information Technology.	Yes <input type="checkbox"/>
Recuperative Care: Provide or support short-term health services to individuals recovering from an acute illness or injury. Such services do not include health services provided in lieu of or concurrent to hospitalization, skilled nursing, or other residential health care.	Yes <input type="checkbox"/>
Behavioral Health: Enhance or expand access to behavioral health (mental health and substance use disorder) services.	Yes <input type="checkbox"/>
Community Partnerships: Establish and strengthen community partnerships and referrals for housing, child care, food banks, employment, education counseling, legal services, and other related services.	Yes <input type="checkbox"/>
Early Childhood Health: Enhance developmental promotion, screening, and follow up to support early childhood health and family well-being by hiring and training new personnel (e.g., developmental-behavioral pediatricians, early childhood mental health consultants, developmental psychologists, community health workers, case managers, health education specialists).	Yes <input type="checkbox"/>
Access for Families: Expand workflows to optimize virtual care and home visiting for activities such as developmental screening, behavioral health, care coordination, and health education to address childhood developmental delays and social risk factors.	Yes <input type="checkbox"/>
Other: Provide details	Yes <input type="checkbox"/>

Recovery and Stabilization	
Pent Up Demand: Bring sites, services, and staff to an operational capacity sufficient to meet pent up demand for services, including addressing the needs of patients and other vulnerable populations who have been without care and whose conditions and needs may have been exacerbated by the social and financial impacts of COVID-19.	Yes <input type="checkbox"/>
Patient Registries: Develop new and/or update existing patient registries to support continuity of services to patients, including those who have delayed care due to factors related COVID-19.	Yes <input type="checkbox"/>
Virtual Care: Expand and enhance virtual care to respond to evolving service area and patient needs and to support access to equitable, high quality care for populations served by the health center.	Yes <input type="checkbox"/>
Care Transitions and Coordination: Support transitions in care settings and coordination with health care and public health partners to address changing needs by enhancing workflows, updating telehealth plans, and enhancing health information and data exchange capacity.	Yes <input type="checkbox"/>
Outreach: Conduct outreach to patients and residents of the service area who have been out of care or who may be in need of a medical home.	Yes <input type="checkbox"/>
Facilitating Access: Expand or enhance enabling or other services to address the unique and evolving access barriers experienced by underserved and vulnerable populations who have been without care and whose conditions and needs may have been exacerbated by the social and financial impacts of COVID-19.	Yes <input type="checkbox"/>
Population Health and Social Determinants: Enhance or update patient population and community needs assessments; update strategic plans, policies, and procedures to reduce disparities in access, care delivery, and clinical quality measures; expand or develop new partnerships with social services organizations that can address identified social determinants of health; and develop or enhance the data infrastructure necessary to track and close social service referral loops.	Yes <input type="checkbox"/>
Patient Engagement: Enhance patient activation and engagement, including through virtual and in-person outreach and education, self-management programs and techniques, partnerships with families and caregivers, patient-centered care coordination, and other evidence-based interventions to support self-care.	Yes <input type="checkbox"/>
Workforce Well-being: Assess needs and develop interventions to support staff well-being and address needs related to burnout and recovery, productivity, stress, professional fulfillment, diversity, and inclusion.	Yes <input type="checkbox"/>
Training: Adapt and deliver staff training to meet new and returning patients' needs, including training to assess and address social risk and other barriers to accessing and engaging in care provided by the health center.	Yes <input type="checkbox"/>
Continuity of Care: Increase team-based and inter-professional service delivery through both in-person and virtual visits to provide continuity of care.	Yes <input type="checkbox"/>
Strategic Planning: Align strategic plans to reflect recovery and stabilization needs.	Yes <input type="checkbox"/>
Early Childhood Health Partnerships: Establish and expand partnerships and referral networks with community services to address developmental delays and social risk factors, such as housing, child care, food security, violence prevention, and medical-legal partnerships.	Yes <input type="checkbox"/>
Access for Families: Enhance capacity to engage families that have fallen out of care during the COVID-19 public health emergency to ensure that they receive the	Yes <input type="checkbox"/>

recommended comprehensive care and resources that align with the child's age, development, and social risk factors, including hiring and training new personnel (e.g., outreach workers, case managers, community health workers, other enabling personnel) to support vaccinations, developmental screenings, intervention referrals, and health education and counseling.	
Other: Provide details	Yes <input type="checkbox"/>
