  - Demonstrate that year 2 PCHP funds will be used to:
    - ✓ Increase the number of patients counseled and tested for HIV,
    - ✓ Increase the number of patients prescribed PrEP, and
    - ✓ Increase the number of patients linked to HIV care and treatment within 30 days of diagnosis.
  - Provide HRSA with sufficient information to determine that PCHP funds will be used separately and distinctly from other Health Center Program support (like the H80 award).
- See [PCHP instructions](#) for example uses of funding.

# Ineligible Costs

Facility or land purchases; installing trailers or modular units

Vehicle purchases (mobile units are allowed)

# Project Work Plan Update

- Use this form to provide an update on the FY 2021 PCHP Project Work Plan to describe both completed and planned activities.
- The information presented in this form needs to align with the presented budget.
- If any new activities are added to this form, justify them in the Activity Progress Update column.

An example Project Work Plan Update form is available on the PCHP TA webpage.

# Project Work Plan Update Tips

1

In HRSA EHBs, a system business rule will not permit you to add new focus areas beyond those specified in the PCHP NOFO:

- PrEP Prescribing
- Outreach
- Testing
- Workforce Development

3

Provide an update for each activity, regardless of status.

Focus Area	Activity Category	Activity Subcategory	Activity Description	Activity Progress	Activity Progress Update
------------	-------------------	----------------------	----------------------	-------------------	--------------------------

2

You can propose new activities in year 2. If you do so, you must complete all work plan fields. For new activities, the activity progress field will be marked as “New” and you can write why you are proposing the new activity in the activity progress update field.
