- Ordering caps have been increased
- Work with community partners to order and distribute masks

COVID-19: Test-to-Treat Strategy

DON'T DELAY: TEST SOON AND TREAT EARLY
| COVID-19 |

Get tested as soon as possible after your symptoms start.

POSITIVE

If you test positive and are at high risk of getting very sick, treatment may be available.

Contact your healthcare provider right away if your result is positive.

Don't delay. Treatment must be started early to work.

[cdc.gov/coronavirus](https://www.cdc.gov/coronavirus)

- A robust program is critical in the fight against COVID-19
- Outpatient COVID-19 treatment closely linked to testing can be effectively integrated and delivered through primary care

Building Bridges to Better Health:

A Primary Health Care Challenge

Health Center Workforce Well-being Survey

Your Voice Matters! We invite all health center staff to give input on factors that affect well-being, job satisfaction, and burnout.

- Purpose: Develop a better understanding of health center workforce well-being to support local, state, and national quality improvement (QI) and program development efforts to enhance well-being, recruitment and retention, quality of care, and health outcomes.
- Timeline:
 - Launches in fall 2022
 - **Administered by our contractor, John Snow Inc. (JSI). Please look for an email from @jsi.com**
 - Survey data available to inform QI efforts in spring 2023
- Learn more about the [Health Center Workforce Well-being Initiative](#)
- Submit questions about the survey or initiative via the [BPHC Contact Form](#) or call 877-464-4772

Remember...

- Report site-level status to your PCA as soon as you are able during an emergency
- National HIV Testing Day
#HIVTestingDay
