Public Burden Statement: An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this project is 0915-0285. Public reporting burden for this collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to HRSA Reports Clearance Officer, 5600 Fishers Lane, Room 14-N39, Rockville, Maryland, 20857.

Instructions

This form enables you to verify key application data. If pre-populated data appear incorrect, verify that the pertinent data in the SF-424A and Forms 1A: General Information Worksheet and 5B: Service Sites were entered correctly.

Service Area

Enter the proposed service area identification number (ID), city, and State, as indicated in the SAAT.

Patient Projection

The total number of unduplicated patients projected to be served in 2021 (January 1 through December 31, 2021) will pre-populate from Form 1A: General Information Worksheet. Enter the Patient Target for the proposed service area from the SAAT. The percentage of patients to be served in 2021 will auto-calculate. Applications with an auto-calculated percentage below 75 percent will be deemed ineligible.

Federal Request for Health Center Program Funding

To ensure eligibility, the total Health Center Program funding request must not exceed the Total Funding available in the SAAT for the proposed service area. Additionally, ensure that the funding requested for each population aligns with the values in the SAAT. If the unduplicated patient projection on Form 1A General Information Worksheet is less than 95 percent of the SAAT Patient Target, ensure the annual Health Center Program funding request is adjusted based on the auto-calculated percentage of patients to be served in calendar year 2021 from the Patient Projection section of this form. If the total Health Center Program funding request is reduced, funding requested for each targeted population (e.g., CHC, MHC) must maintain the same distribution as in the SAAT.

Note: If a required funding reduction based on the unduplicated patient projection is not made in the application, HRSA will make the funding reduction before issuing the award.
Scope of Project: Sites and Services

New or competing supplement applicants: To ensure continuity of services in areas already being served by the Health Center Program, you must certify that all sites described in the application are included on Form 5B: Service Sites and will be open and operational within 120 days of receipt of the NoA.

Competing continuation applicants: To ensure an accurate scope of project, certify that:

- Form 5A: Services Provided accurately reflects all services and service delivery methods included in the current scope of project OR Form 5A: Services Provided requires changes that you have already submitted through the change in scope process.
- Form 5B: Service Sites accurately reflects all sites included in the current scope of project OR Form 5B: Service Sites requires changes that you have already submitted through the change in scope process.

120 Day Compliance Achievement Plan Certification
Certify that if your organization is funded and is noncompliant with any Health Center Program requirements, within 120 days of receipt of your NoA, you will submit for HRSA approval a Compliance Achievement Plan which outlines a plan to meet the Health Center Program requirements within the timeframes required by the conditions on your NoA.
