

# Primary Care Association (PCA) and Health Center Controlled Network (HCCN) Uniform Data System (UDS) Training

---

September 10, 2025, 2:00–3:30 p.m. ET

*This webinar was produced for the Health Resources and Services Administration (HRSA), Bureau of Primary Health Care under contract number 47QRAA23D0087/75R60223F80123.*

# Housekeeping

- **This event is being recorded:** Audio is now broadcasting.
- **Audio is provided through your computer speakers or headphones:** Your line is automatically muted.
- **If you have issues with your speakers:** Close out of Zoom; when you reconnect, check your audio options before joining.
- **Live captioning is available:** Click the CC Live Transcription button to show and hide captions during today's event.
- **Chat box:** The chat will be disabled for attendees but used for dropping links and files today.
- **Need tech support or have questions for our presenters?** Please type in the Q&A box!

# Opening Remarks

---

**Dylan Podson**

**Data and Evaluation**

**Office of Quality Improvement**

**Bureau of Primary Health Care (BPHC)**

**Health Resources and Services Administration (HRSA)**

# Objectives

1

Provide an overview of the Uniform Data System (UDS) and the reporting process.

2

Review resources and technical assistance (TA) activities to support UDS reporting.

3

Highlight how PCAs/HCCNs can uniquely support health centers' UDS reporting.

# Agenda

- Welcome and Logistics
- Overview of the UDS
- Overview of Resources
- Supporting Health Centers:  
A Conversation with  
Massachusetts League of  
Community Health Centers
- Q&A

# Poll #1

**How long have you been supporting health centers with their UDS reporting?**

- A. I'm new to this work! (<1 year)
- B. I've got a few years under my belt. (1–3 years)
- C. I've worked on this for a while now. (4–6 years)
- D. I've lost count! (6+ years)

# UDS Overview

---

The UDS demonstrates **the scope of the Health Center Program**, including the type of program, volume, and outcomes, for each calendar year.

Data are captured annually, which allows stakeholders to **understand how health centers have changed individually and as an aggregate**, year over year.

The UDS conveys to HRSA, Congress, and other stakeholders the **important work that the entire Health Center Program is doing**.

## Value of the UDS Report

# Overview of UDS Report

## Four Primary Sections

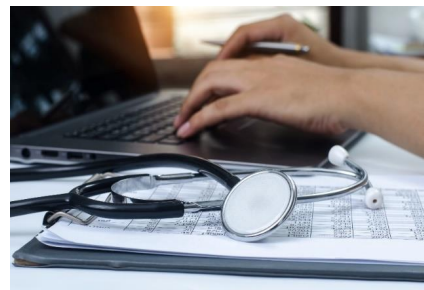

### Patient Characteristics

- **ZIP Code** by medical insurance
- **Table 3A:** Age, sex
- **Table 3B:** Race, ethnicity, language
- **Table 4:** Income, medical insurance, special medically underserved populations

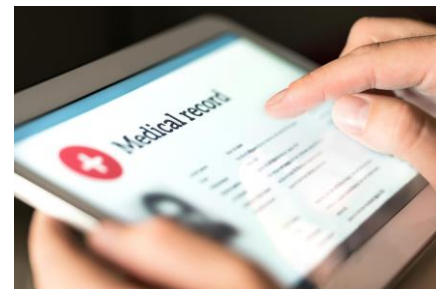

### Clinical Services and Outcomes

- **Table 5:** Staff, visits, patients, integrated behavioral health
- **Table 6A:** Selected services and diagnoses
- **Table 6B:** Clinical quality measures
- **Table 7:** Clinical outcome measures

### Financial Tables

- **Table 8A:** Financial costs
- **Table 9D:** Patient service-related charges and collections
- **Table 9E:** Other revenue

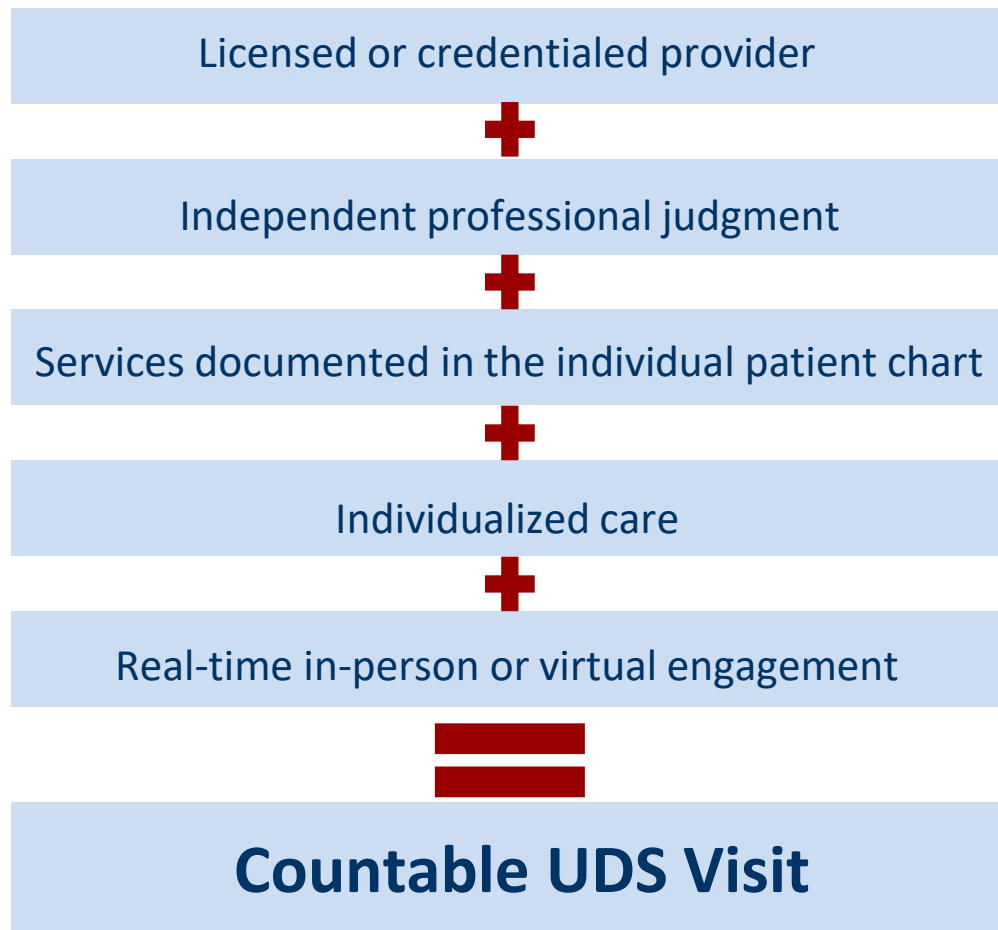

### Other Forms

- **Appendix D:** Health Information Technology (Health IT) Capabilities
- **Appendix E:** Other Data Elements
- **Appendix F:** Workforce

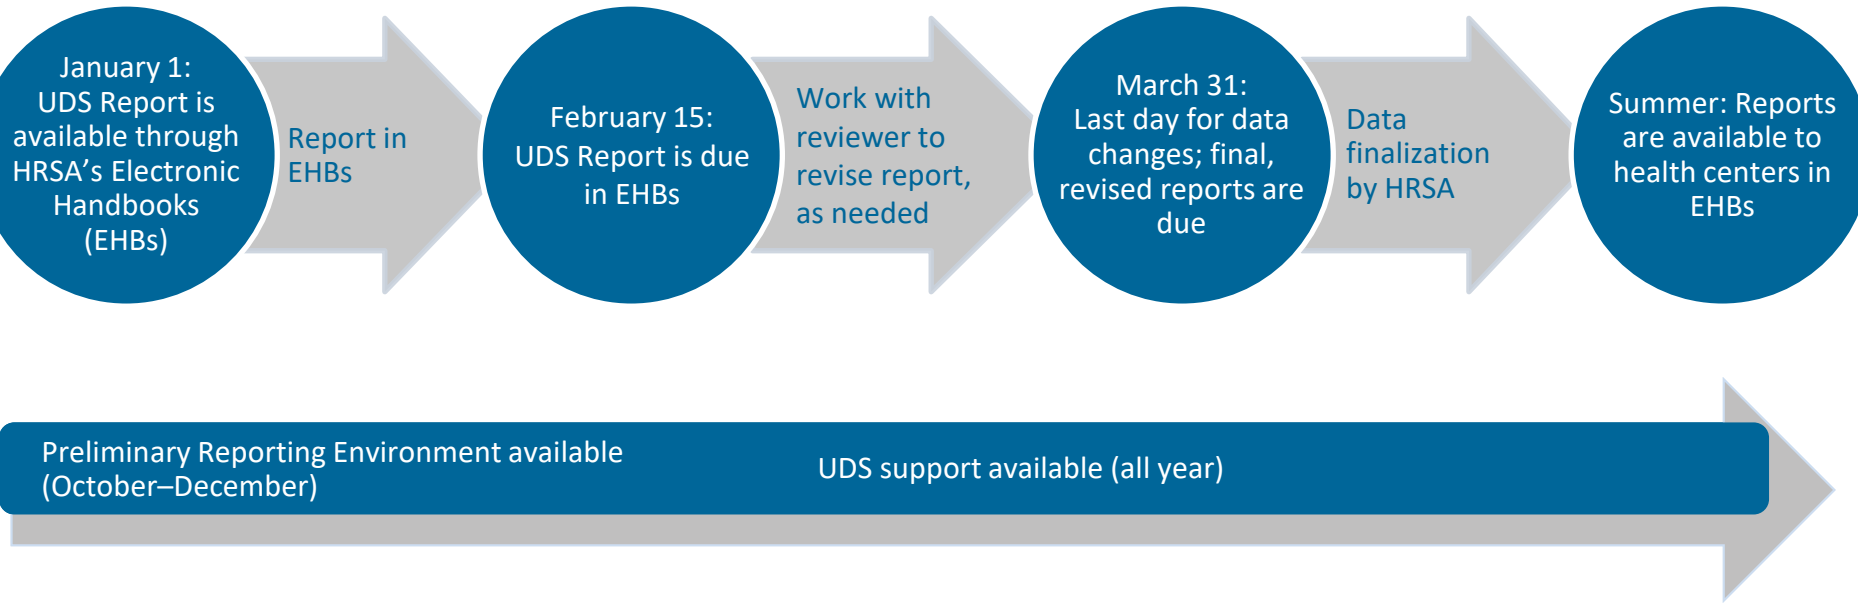

A *patient* in the UDS is someone who has a *countable visit* in any service category on Table 5.

A patient with a countable visit on Table 5 will be reported on demographics, clinical care, and financials tables.

Remember, this definition and its relationship across tables are central to accurate reporting.

# Reporting Timeline

# Communication of UDS Reporting Changes

---

- UDS changes are announced each year via the Program Assistance Letter (PAL).
  - Proposed Changes and Final Changes PALs are announced in the Primary Health Care Digest and BPHC Program Updates webcasts.
- The 2025 UDS Manual reflects these changes and is available for review.
- Updated electronic clinical quality measure (eCQM) specifications are released by the Centers for Medicare & Medicaid Services (CMS) each spring (typically in May for the next performance year).
  - Review of eCQM specifications and any revisions, such as the logic statements or value sets, are determined by the respective measure steward.
  - Measure information can be accessed on the eCQI Resource Center.

# Changes for UDS 2025 Reporting

## Major Changes:

- Table 3B: removal of Lines 13–26
- Table 6A: updated codes, addition of Lines 26c2, 26c3, and 26f, corrections made to Lines 24 and 24a
- Table 9E: removal of Lines 1l, 1m, 1n, 1p, and 3b
- Table 6B: Addition of new eCQM (Lines 23a and 23b)

## Minor Changes/Clarifications:

- Updates to existing eCQMs to clarify language/align with measure stewards
- Clarifications for data across most tables

**For more detailed information about the changes for UDS 2025 reporting, please refer to the Calendar Year 2025 UDS Reporting Changes Webinar.**

# Table 6A: New Data Reported

## Selected Diagnoses and Services Rendered

<div>1</div> <b>Line 26c2: Tobacco use cessation pharmacotherapies</b>	<div>2</div> <b>Line 26c3: Medications for opioid use disorder (MOUD)</b>	<div>3</div> <b>Line 26f: Alzheimer's disease and related dementias (ADRD) screening</b>
OID: 2.16.840.1.113883.3.526.3.1190	OID: 2.16.840.1.113762.1.4.1046.269	CPT-4: 99483 OID: 2.16.840.1.113883.3.526.3.1006
<p>Column A = Number of visits at which the above tobacco use cessation services were provided</p> <p>Column B = Number of patients who had one or more visits where the above pharmacotherapies were provided</p>	<p>Column A = Number of visits at which the above MOUD services were provided</p> <p>Column B = Number of patients who had one or more visits where the above medications were provided</p>	<p>Column A = Number of visits at which the above ADRD screenings were provided</p> <p>Column B = Number of patients who had one or more visits where the above ADRD screenings were provided</p>

# Table 6B: New Measure

## Initiation and Engagement of Substance Use Disorder Treatment ([CMS137v13](#))

This measure will be reported across two new lines on Table 6B, Lines 23a and 23b:

- Patients with a new substance use disorder (SUD) episode who **initiated treatment** will be reported on Line 23a.
- Patients with a new SUD episode who **engaged in ongoing treatment** will be reported on Line 23b.

Section N—Substance Use Disorder (SUD) Measures

Line	Initiation and Engagement of Substance Use Disorder (SUD) Treatment	Total Patients Aged 13 and Older Diagnosed with a New SUD Episode (a)	Number of Records Reviewed (b)	Number of Patients who Received SUD Treatment (c)
23a	MEASURE: Percentage of patients with a new SUD episode who <b>initiated treatment</b> , including either an intervention or medication for the treatment of SUD, within 14 days of the new SUD episode			
23b	MEASURE: Percentage of patients with a new SUD episode who <b>engaged in ongoing treatment</b> , including two additional interventions or medication treatment events for SUD, or one long-acting medication event for the treatment of SUD, within 34 days of the initiation			

# How Can PCAs/HCCNs Be Involved?

---

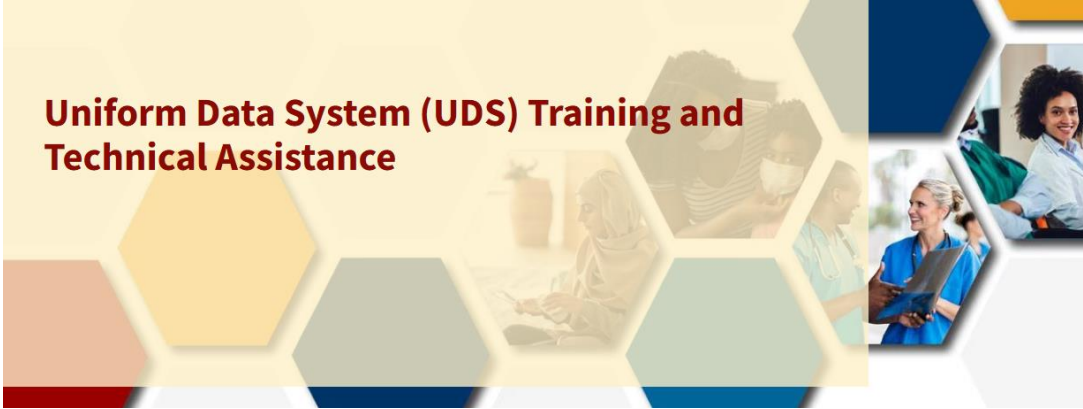

Communicate and clarify changes:

- Alert health centers when PAL and updated eCQM specifications are released.
- Link to guidance on your website.
- Host Q&A sessions.
- Maintain and update frequently asked questions (FAQs).
- Develop state-specific guidance.

# UDS Resources

---

# UDS Technical Assistance

**Uniform Data System (UDS) Training and Technical Assistance**

Visit  
[UDS TA](#)

Central, user-friendly hub for health centers to access UDS reporting TA. Organized by UDS topic areas, such as:

- Patient Characteristics
- Staffing and Utilization
- Clinical Care
- Financials
- Appendices
- Additional Reporting Topics

# Resources to Learn About the UDS

- [2025 UDS Manual](#): **Key resource** outlining tables, forms, reporting instructions, submission instructions, and FAQs.
  - [2025 UDS Tables](#): Available in PDF or Excel format.
- Content throughout TA site
  - [UDS Overview](#), [Patient Characteristics](#), [Clinical Services and Performance](#), [Financials](#), and [Submission Success](#).
  - [2025 UDS Reporting webinar series](#): Register for upcoming webinars and access archived recordings on the HRSA website to watch anytime!
- [Reporting Guidance TA page](#)
  - UDS Beginner Resources: Beginner Toolkit.
  - UDS Advanced Resources: Suggested UDS trainings and resources for staff familiar with UDS data and reporting.
  - [EHBs Overview Video](#): Explains the permissions required to access the UDS Report through the grant management systems that health centers use to report UDS data annually.

# Resources to Learn About the UDS, cont.

## Countable Visits Guidance and FAQ

## Clinical Quality Measures (CQMs) and Healthy People Objectives

## Forms Fact Sheet

### UNIFORM DATA SYSTEM

#### Uniform Data System (UDS) Countable Visit Guidance and Frequently Asked Questions (FAQ)

The UDS Report is designed to reflect the in-scope healthcare services provided by a health center<sup>1</sup> to individuals who have had a countable visit during the calendar year. Countable visits are those that include **all** fundamental components:

#### Key Definitions

**Patient:** An individual who has at least one countable visit (virtual or in person) in one or more service categories<sup>2</sup> during the calendar year. While health centers serve many people in lots of different ways, not all people will count as a "patient" for the purposes of the UDS Report.

**Countable Visit:** An encounter between a patient and a licensed or credentialed provider who exercises independent professional judgment in providing documented services and individualized care that take place in-person or virtually. Only count visits that meet all of these criteria.

#### Components of a UDS Countable Visit

**Provider is licensed or credentialed.**

Providers may be personnel of the health center, contracted personnel, or volunteers. Not all health center personnel who interact with patients qualify as a provider. Providers performing services within the scope of their license, credentials, or certification should be considered. Note that licensing and credentialing are state/territory specific; and although training and testing may follow federal standards, each state and territory has its own board. If a physician has multiple board certifications<sup>3</sup>, report them according to the specialty they are functioning.

<sup>1</sup> This includes services performed by health center providers or contracted providers, where the health center pays or bills directly for the service and the health center is accountable for the treatment plan and care provided.

<sup>2</sup> Service categories include: medical, dental, mental health, substance use disorder, vision, other professional, or enabling.

<sup>3</sup> Certification received through board testing that recognizes demonstrated advanced mastery in the specialty certified in.

### UNIFORM DATA SYSTEM

#### Uniform Data System (UDS) Clinical Quality Measures and Healthy People 2030 Objectives and Benchmarks

##### UDS Clinical Quality Measures Aligned with Healthy People 2030

##### Objectives

UDS Clinical Quality Measure	Healthy People 2030 Objective	Healthy People 2030 Target
Breast Cancer Screening	C-05	80.5%
Cervical Cancer Screening	C-09	84.3%
Colorectal Cancer Screening	C-07	74.4%
Dental Sealants for Children between 6-9 Years	OH-10	42.5%
Diabetes: Hemoglobin A1c (HbA1c) Poor Control (>9%)	D-03	11.6%
Early Entry into Prenatal Care	MICH-08	80.5%
HIV Linkage to Care	HIV-04	95.0%
Preventive Care and Screening: Screening for Depression and Follow-Up Plan	MHMD-08	73.5%

##### Additional Resources

For more information regarding HP 2030 objectives and goals:  
<https://health.gov/healthypeople/objectives-and-data/browse-objectives>

For more information about 2022 UDS Clinical Quality Measures:  
<https://hphc.hrsa.gov/sites/default/files/hphc/data-reporting/2022-uds-manual.pdf>

### UNIFORM DATA SYSTEM

#### UDS Forms: Capabilities, Other Data Elements, and Workforce

This fact sheet provides guidance on completing the Appendix D: Health Center Health IT Capabilities, Appendix E: Other Data Elements, and Appendix F: Workforce forms that are required elements of the annual Uniform Data System (UDS) submission. Each form will be discussed separately below.

#### APPENDIX D: HEALTH IT CAPABILITIES FORM

##### PURPOSE:

Appendix D gathers information on health centers' health IT capabilities, including questions about electronic health records (EHR) interoperability, as well as eligibility for **Centers for Medicare & Medicaid Services Promoting Interoperability programs**.

##### CHANGES:

There are no key changes to Appendix D: Health Center Health IT Capabilities Form.

##### KEY TERMS:

**Electronic Health Record (EHR)/Electronic Medical Record (EMR)/Patient Health Record.** A digital version of a patient's paper chart. EHRs are real-time, electronic records that make information available instantly and securely to authorized users. They contain a patient's medical history, immunization records, allergy information, radiology images, laboratory results, and more. EHRs facilitate the sharing of data across different healthcare settings, allowing for comprehensive and coordinated care.

##### Prescription Drug Monitoring Program (PDMP).

A state-run electronic database used to track the prescribing and dispensing of controlled prescription drugs to patients. PDMPs are a valuable tool in combating the opioid epidemic by enhancing the ability to monitor and control prescription drug use.

##### HOW DATA ARE USED:

The data are used to better understand health IT interoperability and patient access to health information. It also assesses how many health centers are collecting and using health-related needs data.

##### FORM TIPS:

- Respond to the questions in this form based on your health center status as of December 31 of the calendar year.
- The form provides definitions and explanations for each question. Please review carefully before responding.
- Health centers will need to know their EHR vendor, product name, and version number. You will also need to obtain the Assistant Secretary for Technology Policy (ASTP), Office of the National Coordinator for Health Information Technology (ONC) Certified Health IT Product List Number for your EHR. For more information, you can access the [Certified Health IT Product List](#).
- It is helpful to work with your EHR and health IT team early to make sure you have accurate information to complete this form.

# Resources to Learn About Changes to eCQM Specifications

---

- Changes to eCQM specifications, such as logic statement revisions, are governed and vetted by the respective measure steward.
  - Most UDS CQMs align with CMS eCQMs.
  - Appendix G of the UDS Manual provides information on eCQM stewards.
- Review changes to eCQM specifications on the [Electronic Clinical Quality Improvement \(eCQI\) Resource Center website](#).
  - Also access eCQM value sets on the [Value Set Authority Center \(VSAC\) website](#).

# eCQI Resource Center

The screenshot shows the eCQI Resource Center website. The header includes the eCQI logo and the text "RESOURCE CENTER". Below this are navigation links: eCQMs (Electronic Clinical Quality Measures), dQMs (Digital Quality Measures), Resources (Standards, Tools, & Resources), About (eCQI, CDS, FAQs, Engage), and Log in (Manage Your Account). A search bar with the placeholder "Enter keywords" is also present. The main content area features the title "eCQM Implementation Checklist" and a link "Receive updates on this topic". The text explains that CMS requires an eligible clinician, eligible hospital, or critical access hospital to use the most current version of the eCQMs for quality reporting programs. It also mentions that the Preparation and Implementation Checklists (PDF) assume that a health care practice/organization has determined which measures to report on. The text concludes by stating that the most recent eCQM Annual Update should be applied to the system for use in CMS electronic quality reporting. At the bottom, there is a link to the "Preparation Checklist".

dQMs Digital Quality Measures

Resources Standards, Tools, & Resources

About eCQI, CDS, FAQs, Engage

Log in Manage Your Account

Enter keywords

## eCQM Implementation Checklist

[Receive updates on this topic](#)

The Centers for Medicare & Medicaid Services (CMS) requires an [eligible clinician](#) (EC), [eligible hospital](#) (EH) or [critical access hospital](#) (CAH) to use the most current version of the [eCQMs](#) for quality reporting programs.

The [Preparation and Implementation Checklists](#) (PDF) assume that a health care practice/organization has determined which measures to report on. It provides the necessary technical steps health information technology (IT) developers, implementers and health care organizations must take to update their systems and processes with the eCQM Annual Update for the upcoming reporting and performance periods. The most recent eCQM Annual Update should be applied to your system for use in CMS electronic quality reporting.

[Preparation Checklist](#)

- [eCQM Implementation Checklist](#)
  - Six preparation steps
  - Seven implementation steps
- eCQM supports include:
  - [eCQI Resource Center](#):  
“Measure Information” tab ->  
“Compare”—**this highlights changes year over year**
  - [eCQM Flows](#): Workflows for each eCQM, updated annually
  - [eCQM Value Sets](#): The VSAC, where you can search value sets
  - Additional resources on the [eCQM Resources page](#)

# Accessing Codes for All Measures

**Download all codes from the VSAC site:** Once you are logged in, go to Download tab -> 2025 Reporting -> eCQM Value Sets for Eligible Clinicians.

## Two Download Options:

- Download Excel **Sorted by CMS ID** to get the full set for each measure—you'll match the CMS # from the UDS Manual to the CMS # on the tabs of the downloaded sheet. There are more measures in the spreadsheet than there are in the UDS.
- Download Excel **Sorted by Value Set Name** to find codes for only certain value sets. A value set is a list of specific codes and their corresponding terms that collectively represent a particular clinical or administrative concept relevant to the measure.

The screenshot shows the VSAC website interface. The top navigation bar includes 'Welcome', 'Search Value Sets', 'Download' (highlighted with a red arrow), 'Comparison Tool', 'Browse Code Systems', and 'Help'. The 'Download' tab is active, displaying 'VSAC Downloadable Resources'. A sidebar on the left lists categories: 'CMS eCQM & Hybrid Measure Value Sets' (highlighted with a red arrow), 'CMS Pre-rulemaking eCQM Value Sets', 'C-CDA Value Sets', and 'CDCREC Roll-up codes'. The main content area shows a list of value sets with a table of available downloads. The table has columns: 'Available Downloads', 'Sorted by CMS ID\*', 'Sorted by Value Set Name\*', and 'Sorted by Quality Data Model Category\*'. The row for 'eCQM Value Sets for Eligible Clinicians Published May 04, 2023' has 'Excel (xlsx)' and 'SVS (xml)' buttons highlighted with a red arrow.

Available Downloads	Sorted by CMS ID*	Sorted by Value Set Name*	Sorted by Quality Data Model Category*
eCQM Value Sets for Eligible Hospitals Published May 04, 2023	Excel (xlsx) SVS (xml)	Excel (xlsx) SVS (xml) SVS (text)	Excel (xlsx)
eCQM Value Sets for Eligible Clinicians Published May 04, 2023	Excel (xlsx) SVS (xml)	Excel (xlsx) SVS (xml) SVS (text)	Excel (xlsx)
eCQM Value Sets for Hospital Outpatient Quality Reporting	Excel (xlsx) SVS (xml)	Excel (xlsx) SVS (xml) SVS (text)	Excel (xlsx)

# Accessing Full eCQM Specifications

---

The video is available to all at the following link: <https://vimeo.com/635520357>

eCQM Resources Checklist

# Key References for Measure FAQs

[Assistant Secretary for  
Technology Policy/Office of the  
National Coordinator  
\(ASTP/ONC\) Project Tracking Jira](#)

[eCQM Known Issue Tracker](#)

[UDS Helplines](#)

# eCQM Keys to Remember

To be reported *anywhere* on the UDS, a patient must have a countable visit on Table 5 during the year.

Countable visits can be in multiple service areas (medical, dental, mental health, SUD, etc.) if they meet the definition.

For CQM reporting on Tables 6B and 7, patients must meet the criteria detailed in the individual measure specifications.

Eligible visit types are defined by the measure steward and are unique to each eCQM.

It is essential to review and use the codes listed in each eCQM.

Review changes to eCQM specifications on the [eCQI Resource Center](#) website. Access eCQM value sets on the [Value Set Authority Center](#) (VSAC) website.

# Ongoing Support

Description	Contact	Email or Web Form	Phone
UDS reporting questions	UDS Support Center	<a href="mailto:udshelp330@bphcdata.net">udshelp330@bphcdata.net</a> or BPHC Contact Form Select: UDS Reporting and most applicable subcategory	866-837-4357 (866-UDS-HELP)
EHBs account and user access questions	Health Center Program Support	BPHC Contact Form Select: Technical Support, EHBs Tasks/Technical Issues, EHBs Privileges	877-464-4772
EHBs technical issues with UDS Reports	Health Center Program Support	BPHC Contact Form Select: Technical Support, EHBs Tasks/Technical Issues, Other EHBs Submission Types	877-464-4772

## Poll #2

**How do you use or share these resources with your health centers?**

- A. Provide guidance on how/where to find information
- B. Create or customize our own resources
- C. Offer training to health centers
- D. Give hands-on technical assistance and support
- E. Something else (tell us in the chat)

# Supporting Health Centers

---

# Many Ways to Support UDS Efforts

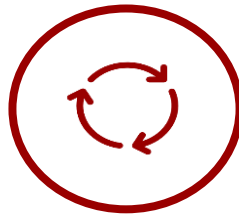

**General  
Resources**

**CQM  
Resources**

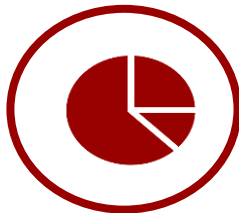

**Changes  
Communication**

**State  
Specifics**

**Data  
Reports**

**Data  
Support**

# General Resources

---

- Maintain knowledge of TA resources available.
  - What additional training or clarification does our staff need?
- Determine where/how information will be shared.
  - Links to HRSA website or hosting directly on your own?
- Solicit TA needs from health centers to better match resources with needs.
- Create state-specific memo clarifying annual reporting changes.
- Support onboarding of new staff when health centers experience turnover of UDS staff.
  - Offer to meet with new staff.
  - Create “quick start” guide to resources.

# eCQM Resources

---

- Reporting Assistance Process Improvement Discussions (RAPID) Cohorts: Groups of health centers that focus on improving their compliance rate for a particular eCQM.
- Measures of focus for 2025 cohorts: Cervical Cancer Screening, Breast Cancer Screening, and Colorectal Cancer Screening.
- Each cohort meets 6 times and completes Action Work after each session. The aim of all activities is to enable health centers to name their challenges and begin to develop strategies for mitigation.

# Action Work Ex:

---

- In the first session, all health centers are shown how to access and download their data from the EHBs and from [data.HRSA.gov](https://data.HRSA.gov)
  - One Action Item is for health centers to follow these steps to download their data
  - We will go over how you can do this later in the session
- Another Action Item from this session focuses on the “5 Whys Exercise” in which participants define their problem (ex: Patients are not completing their Breast Cancer screenings), and then writing out 5 whys
  - Health Centers are asked to complete this exercise with their teams and bring the responses to the next session

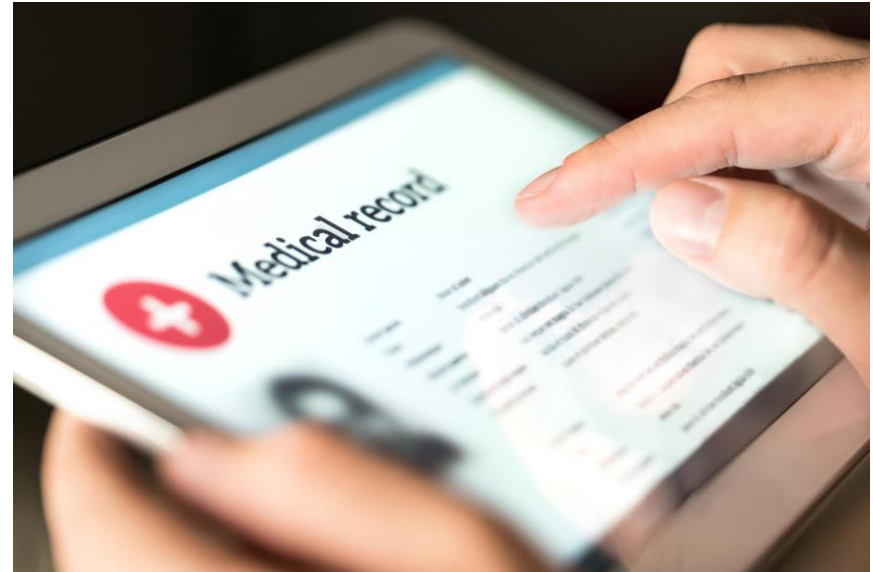

# PCAs/HCCNs and eCQM Support

---

- How can PCAs/HCCNs support health centers looking to address low compliance on eCQMs?
  - Encourage these health centers to apply for Reporting Assistance Process Improvement Discussions (RAPID), we take new cohorts each year.
    - 2025 RAPID cohorts have concluded, the application for 2026 cohorts will be available after 2025 UDS submission.
  - Ensure health centers know how to access their data.
  - Connect health centers to each other through work groups or peer learning sessions.

# Specific State and Local Information

- Gather information on specific state and local programs available to cover patient care—in whole or in part.
- Track and communicate any state-specific guidance that needs to be reconciled with federal requirements.
  - Ex: Does the state require more detailed race/ethnicity categories?
- Be familiar with how/if managed care is delivered in your state. Remind health centers to access attribution lists early.
  - Resource: [UDS Managed Care Reporting and Relationship across Table 4 and 9D](#)

# Specific State and Local Information, cont.

UDS tables that are often influenced by state-specific programs:

- Selected Patient Characteristics (Table 4)
  - What state/local insurance programs?
  - What indigent care programs?
  - How is the Children's Health Insurance Program administered?
- Patient Service Revenue (Table 9D)
  - What payers are in the state, and where are they reported?
- Other Revenue (Table 9E)
  - Where should state or county funds be reported?

# UDS Data Reports for TA

UDS Report	Timing	Available To	Level Available	Source

# Data Support

---

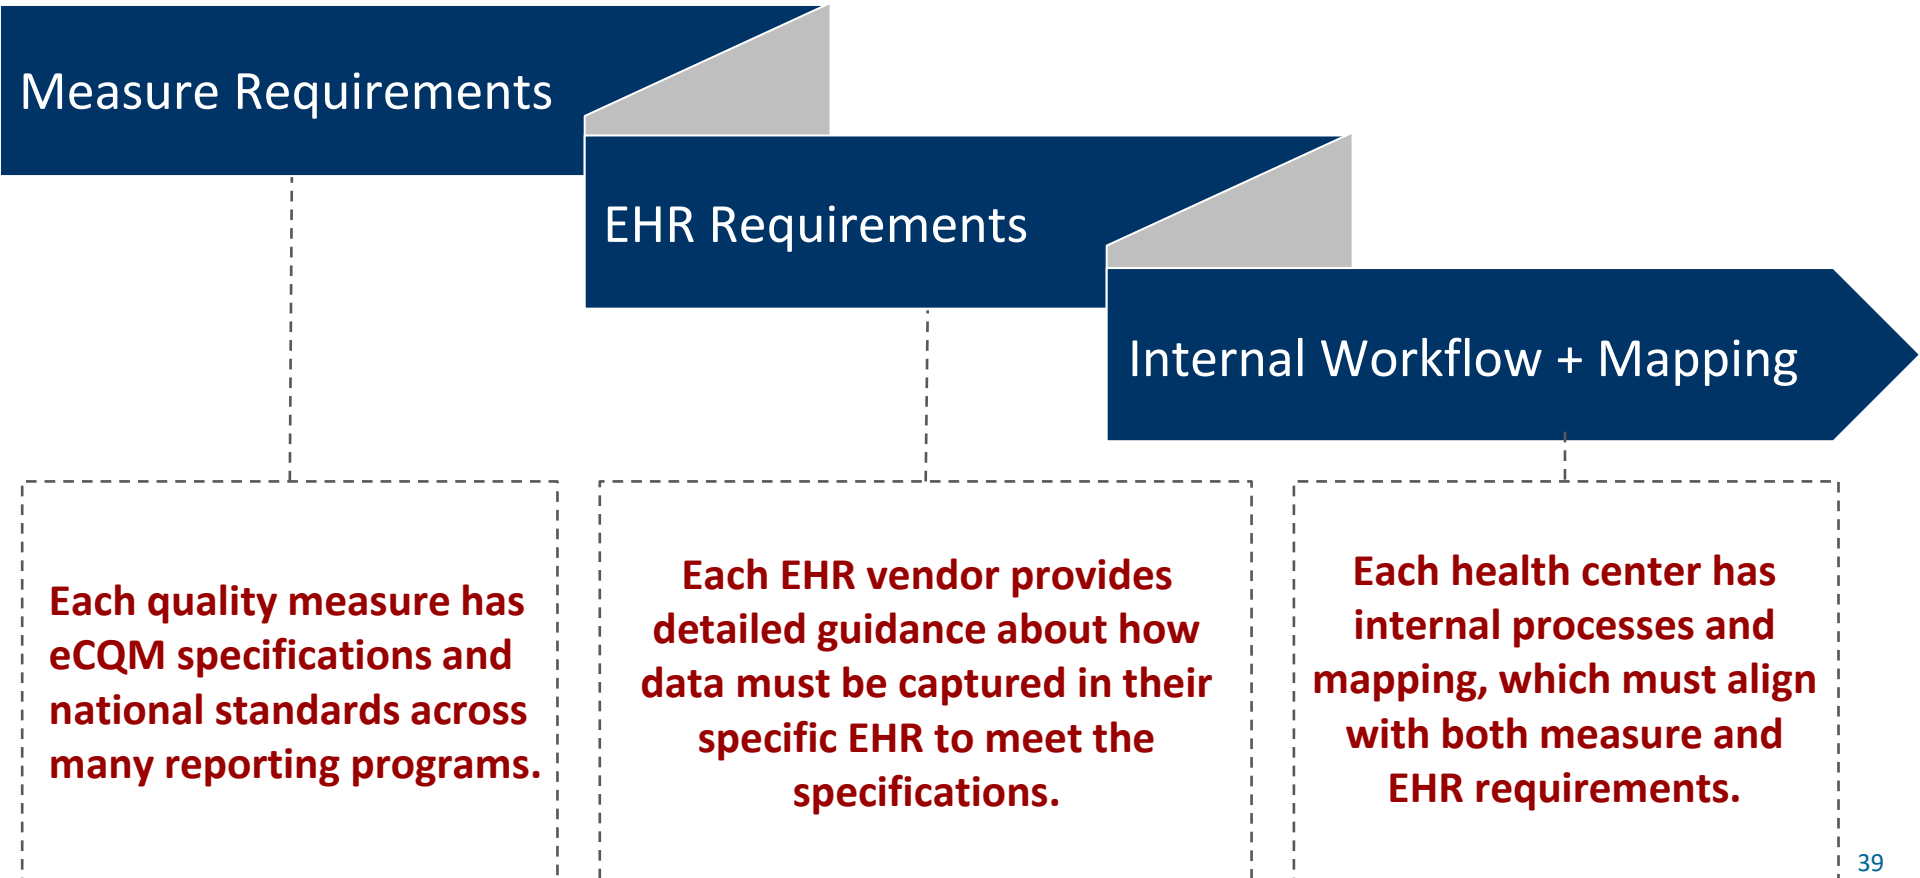

## Implementing activities to improve data quality improvement

- Understanding measure specifications, code and value set requirements, and reporting guidance
- Training around improved coding
- Quality improvement resources to assess and improve data quality
- Reviewing data and identifying trends

## Understanding how data reporting relates to payment and recognition

- Including value-based payment and managed care arrangements, patient-centered medical home, and other programs
- Ex: Healthcare Effectiveness Data and Information Set measures or health-related needs screening initiatives

# Data Alignment and Support

## Poll #3

**What is the biggest challenge you experience working to support health centers?**

- A. Dealing with staff turnover
- B. Engaging with health centers that are busy/overwhelmed
- C. Understanding requirements so you can support health centers
- D. Knowing what kind of assistance is most helpful to health centers
- E. Other (please chat in!)

# Let's Hear from a Colleague

A Conversation with Susan J Adams, PMP  
from the Massachusetts League of  
Community Health Centers

**How do you incorporate UDS  
support into your overall  
engagement and support of  
health centers?**

**Can you share how you help  
health centers use UDS data  
for performance tracking and  
validation?**

**How do you help health  
centers align their internal  
workflows and electronic  
health record (EHR) data with  
UDS requirements?**

**What strategies do you use to  
address common challenges  
health centers face with UDS  
reporting?**

This video will cover how to access the UDS Data Reports available to PCAs and HCCNs in the EHBs. These reports are not publicly available.

# How to Access UDS Data Reports on HRSA.gov

The screenshot shows a web browser window with the URL `data.hrsa.gov`. The browser's address bar and tabs are visible at the top. Below the browser window is a video feed of Sarah Cruthirds. The website header includes the HRSA logo, the text "Health Resources & Services Administration", and "U.S. Department of Health & Human Services". The main navigation bar features the "data.HRSA.gov" logo, a search bar with the text "Enter Search", and a link to the "A-Z Index". Below the navigation bar is a horizontal menu with links: "Home", "Find Health Care", "Data", "Maps", "Tools", "Topics", and "Help". The main content area features a large banner with a group of diverse people. On the left side of the banner, there is a text box that reads: "HRSA Fact Sheets for Fiscal Year 2024 are now available. Explore the impact of HRSA's investments across the United States." Below this text is a blue button labeled "View FY 2024 Fact Sheets". Below the banner, the text "Health Care Services" is displayed in a red font, followed by the text "HRSA funds comprehensive and preventive health care services used by more than 28 million people." The Windows taskbar is visible at the bottom of the screen.

This video will cover how to access the UDS Data Reports available to PCAs and HCCNs on HRSA.gov. These reports are publicly available.

# Wrap Up!

---

## Key Takeaways from Today's Session:

- Support can work in all directions!
  - The more everyone is aware of how to access and use available resources:
    - ✓ The easier it will be for you to support health centers.
    - ✓ The more likely it is that health centers will be able to find what they need.
- It is critical to determine what support you are uniquely positioned to offer to health centers vs. what actions health centers most likely need to do themselves

# Q&A
